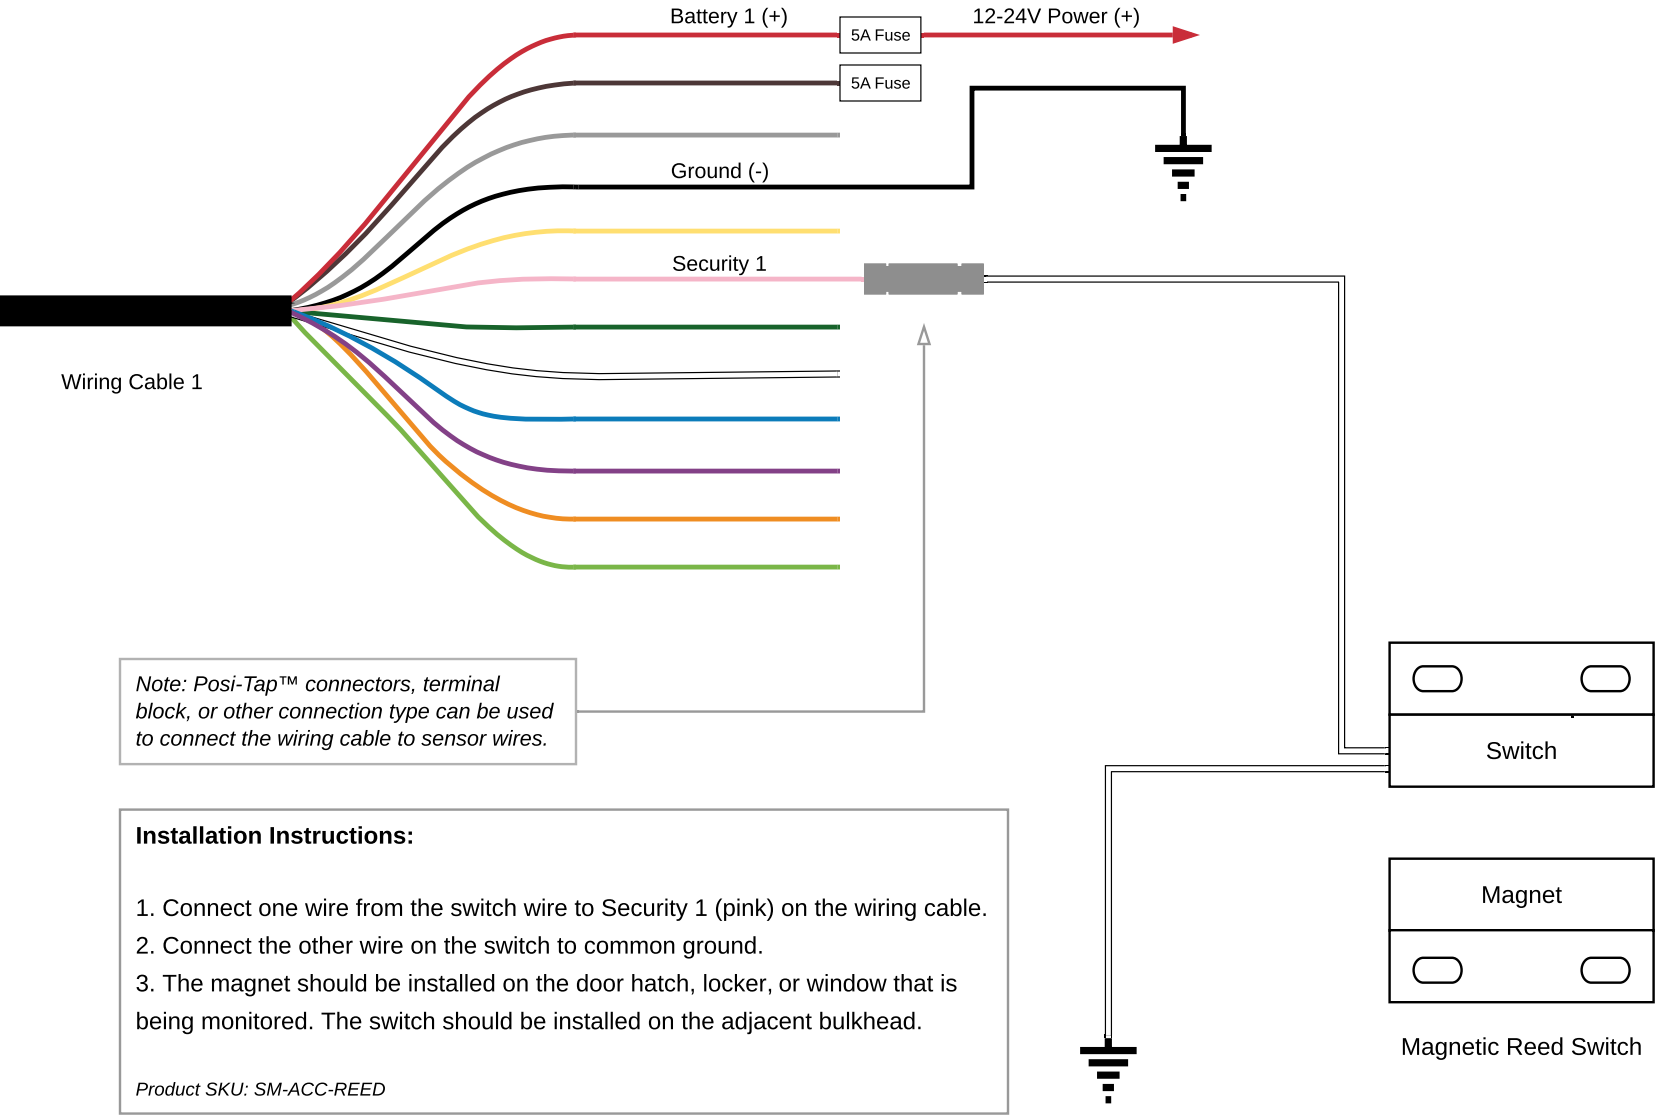
Magnetic Reed Switch Wiring Diagram



Note: Posi-Tap™ connectors, terminal block, or other connection type can be used to connect the wiring cable to sensor wires.

Note: The swtich part of the Magnetic Reed Switch includes the two wires. It does not matter which of these wires goes to Security 1 and ground.

The magnet part of the Magnetic Reed Switch does not have any wires.

Installation Instructions:

1. Connect one wire from the switch wire to Security 1 (pink) on the wiring cable.
2. Connect the other wire on the switch to common ground.
3. The magnet should be installed on the door hatch, locker, or window that is being monitored. The switch should be installed on the adjacent bulkhead.

Product SKU: SM-ACC-REED
