

KNOTBONE™

Knot Replacement #6 & #9

The KnotBone Knot Replacement allows you to lock down and attach larger ropes and cords in a variety of configurations without the hassle or stress of tying a knot.

Our KnotBone Knot Replacements pack a surprising punch of functionality in their relatively small size. Designed to use with larger ropes and cords, they loop and anchor lines, connect one length of cord to another, extend lines, and more - all with a simple clip, wrap, lock principle that keeps the connection fixed. No more tying and retying, struggling with awkward angles or worrying tied ropes will slip or loosen. As easy to undo as it is to secure, the KnotBone Knot Replacement not only makes binding and connecting faster and more certain, it makes your unbinding and releasing quick, controlled, and safe.

- ⊕ Available in two packaging options:
- ⊕ Size #6 fits 6mm or 1/4" cords - 75 lb (34 kg) Weight Rating
- ⊕ Size #9 fits 9mm or 3/8" cords - 175 lb (80 kg) Weight Rating
- ⊕ Molded of strong, durable, wear resistant resins the KnotBone is made to perform in demanding environments.
- ⊕ Four ways to start using the KnotBone Knot Replacement: Anchor Loop, Rope Connector, Single Rope Loop, Fixed Loop
- ⊕ Many more uses - limited only by your imagination!

WARNING: Manufacturer is not responsible for loss, injury, or damage to improper use of product. Inspect product and rope prior to use. DO NOT EXCEED stated load limit of product (#6 - 75lbs/34kg | #9 - 175lbs/80kg) or rope, whichever is less. Manufacturer makes no guarantees concerning line, rope or cord not contained in this packaging. Avoid sharp edges, hot or abrasive surfaces, and shifting loads.
