

FIGURE 9™

Rope Tightener- Large

If you've ever had problems with losing tension in your rope while tying a knot, or wasted time untying a difficult knot, here's your hassle-free solution. Our innovative, patented Figure 9 tightens, tensions, and secures ropes without knots.

The Figure 9 makes tightening any line a stress-free task. From tying awkward objects to the back of a truck or vehicle to organizing tools or items in the garage, this handy tool secures large loads quickly and keeps tension where you need it. Loop your rope through its strategically designed prongs, pull it tight, and it stays that way.

A smart alternative to complicated cam tensioning devices and bungee cords, our Figure 9 also controls the release of high tension, avoiding sudden and dangerous unloading.

- ⊕ Two attachment methods for ultimate versatility:
Loop System
Fixed End System
- ⊕ Laser engraved instructions ensure ease in operation
- ⊕ Use with your own rope or purchase a combination set that comes with rope
- ⊕ Lightweight, strong aluminum construction
