

GEAR TIE®

DOCKABLE TWIST TIES

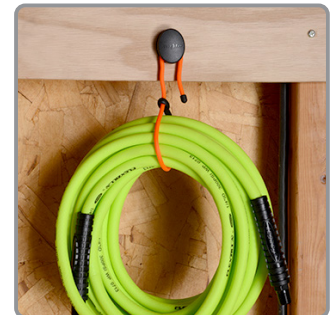

The versatile, flexible Gear Tie Dockable Twist Tie bundles, stores, and hangs even the most unruly smaller tools and gear, keeping them neat, organized, and accessible on the go.

Everyone has a box of smaller tools or a shelf that holds all of the odds and ends that we need, but don't have a good way to store and organize. The Gear Tie Dockable Twist Tie solves this problem simply, conveniently, and with Gear Tie functionality. The Gear Tie Dockable Twist Tie features a tough plastic mountable Dock that permanently screws into the wall and has a grooved V-shaped opening that securely grips its flexible, durable 12" Gear Tie at any point you attach it. The Gear Tie itself features a grippy rubber surface for extra hold both around your gear and in the Dock. Just wrap the Gear Tie end around even the most unhangable items (it's fitted with an integrated loop at one end, which makes hanging and cinching a breeze) and place the Gear Tie over and into the Dock. Organization where there was none before. The Gear Tie Dockable Twist Tie is excellent for tools of all sizes, fishing rods, waders, helmets, backpacks, garden gloves, wide hedge clippers - even smaller wheeled items like skateboards and scooters.

The versatility of the Gear Tie Dockable Twist Tie allows for multiple uses and functionality, including portability. Though it stays securely in the Dock when hanging items, the Gear Tie itself is easy to remove and reuse in multiple ways. Hang a drill to the Dock when storing it, then take the Gear Tie along with the drill when you detach to use. Use the Gear Tie to hang the drill to any ladder, hook, belt loop, or knob in your work area. Or, use the Gear Tie to keep an extension cord secure and tangle-free, then simply dock the cord when you are done for a complete storage and organization solution.

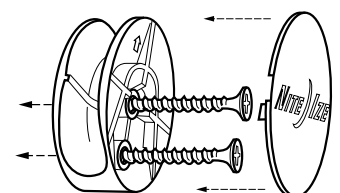

The Gear Tie Dockable Twist Tie can be mounted individually to keep single essentials stored where you need them, or, attach multiple Gear Tie Dockable Twist Ties to a wall or board and create your own customized, versatile rack, choosing the exact height, width, length, and number you need. The flexibility of the Gear Ties allow you to overlap docked items for easy access in the Gear Tie Dockable storage and organization system.

When paired with the [Nite Ize Gear Line](#) and [Gear Tie Dockable Twist Tie 24"](#), this system creates vertical as well as horizontal storage options to optimize even the smallest spaces.

- ⊕ Gear Tie Dockable Twist Ties create a storage and organization system for all of your tools and gear
- ⊕ Simply mount the Dock to any wall stud or other desired location with the included (2) #8 x 2" screws to create a docking location
- ⊕ Use the integrated end loop to secure the Gear Tie around nearly any item by cinching or twisting, then slide it over and into the Dock for secure storage and convenient access
- ⊕ Use multiple Docks to create a complete wall system for your garage or workspace
- ⊕ Gear Tie can stay on your object to create added utility and convenience. For example, you can keep cords organized, hang tools from a ladder or work space, or use to keep nearly any item secure and organized on the go.
