

GEAR TIE®

LOOPABLE TWIST TIE

The Gear Tie Loopable Twist Tie features a strong wire inside that holds its shape and a tough rubber shell that provides excellent grip. With an integrated loop on one end, it allows you to cinch, twist, store, and hang nearly anything for convenient storage and access.

With its strong, bendable wire interior and durable, ridged rubber exterior, our Gear Tie 12" Loopable Twist Ties grip, wrap, and secure most smaller items - like charge cords, USB cords, and headphone cords - hundreds of times in hundreds of ways. The added feature of an integrated loop on one end allows you to thread the other end through it and pull to cinch and organize nearly anything. Then twist the other end around a handle, zipper pull, anchor point, or key ring. You can also use the loop to hang it from a small hook or tie a line through the hole for quick connections. Two or more Gear Ties can also be looped together to create a chain of any length - the configuration possibilities are as endless as the number of little things it will organize, hang, connect, attach, and carry for you.

- ⊕ The Gear Tie Loopable Twist Tie allows you to loop, cinch, twist, and store cords, cables, and other smaller items for convenient storage and access
