**** Custom Build The Kayak / SUP Rack You Need ****

No more lugging around your heavy kayak or paddleboard after a long day on the water. With Magma's new Kayak/SUP Storage Rack System your problems are solved.

Building the rack system is simple; start with the base rack, **R10-1003-64**, and purchase the specific arms separately that best fit your needs. Rack arms are constructed from 304 Mirror Polished Marine Grade Stainless Steel tubing and are available in either straight, 30" x 1-1/2" Dia., **R10-1010-30**, or 36" x 1-1/2" Dia., **R10-1010-36**, for Kayak's and water toys, or angled, 1" Dia., **R10-1020**, for SUP's / Board's. Fully assembled this rack holds up to 4 Kayaks and 5 SUP's or any combination of both.

The base rack is designed to be mounted directly to any dock. Constructed with 1-1/2" Dia. 304 Mirror Polished Marine Grade Stainless Steel tubing, each vertical uprights has adjustment holes spaced 2" apart for maximum storage capacity. Rack and components include pre-installed UV resistant polyethylene foam pads, Stainless Steel mounting / attachment fasteners, and stainless steel tie-down end loops for using securing straps or a cable lock to safely secure items in the rack.

Whether you're new to water sports or a seasoned veteran this rack system is a must have for every water activity enthusiast.

Application

Over the water dock mounted kayak / SUP storage rack
