Uniden® GMR 4060-2CKHS

Two-Way Radio with Lithium Ion Batteries

*Handset Rendering
Final Design Pending.

- **22 CHANNELS**

Offers 7 FRS and 15 GMRS channels.

- **121 PRIVACY CODES**

Help prevent interference from other groups using the same channel.

- **LITHIUM ION BATTERIES**

Long lasting and light weight for convenient operation.

- **NOAA WITH ALERTS**

Alerts you to hazardous conditions.

- **POWER BOOST**

Allows you to reserve the highest power for when you really need it to preserve battery life.

- **WATER RESISTANT (JIS4)**

Resistant to damage from water spray.

- **10 CALL TONES**

Lets you choose from 10 different call tones so that others can identify when you are calling.

- **VOX HEADSET JACK**

Allows you to connect the included VOX headset for hands-free operation.

- **EMERGENCY STROBE LIGHT**

Visually alerts others when you need help, or use as a handy flashlight.

- **USB CHARGING WITH CRADLE**

Conveniently charge in the cradle or anywhere you have a USB power source.

RANGE VS. TERRAIN

UP TO 40 MILE RANGE

Actual range may vary depending on environmental and terrain conditions. Due to FCC requirements, the maximum range can only be achieved on the GMRS channels (1-7 and 15-22) allowing for increased power.

Package Includes: (2) GMR4060 Radios, (2) Belt Clips, (2) Lithium Ion Battery Packs, (1) Charging Cradle, (1) AC Adapter with Micro USB Connectors, (2) Hands-free Earbuds and Printed Materials.
