

DAVIS
ScrubbisTM
 BOAT HULL CARE

The Scrubbis system: easy and effective management, cleaning and care of your hull while the boat is still in the water.

Underwater Hull Cleaning Kit

#4400 \$149.99 List

Complete kit for cleaning the boat's hull while it remains in the water. Use with the extension pole (included in the kit) for a total reach of 126" (3.2 m).

Groovy Scrubbis

#4420 \$64.99 List

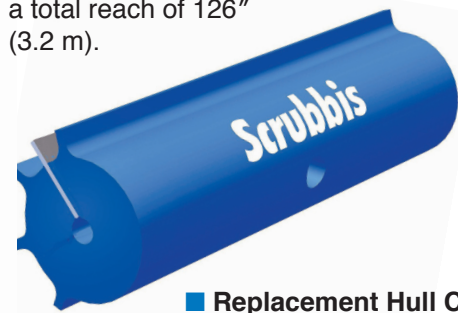

Buoyant Groovy Scrubbis is purchased as an add-on accessory item for extra tough bottom growth. Easily switches out with standard hull cleaning head.

Waterline Brush

#4410 \$64.99 List

Buoyant Waterline Brush quickly attaches to the Telescoping Pole (included in #4400) to make it an easy reach for cleaning waterlines.

Replacement Hull Cleaning Head

#R4400A \$59.99 List

A direct replacement for the cleaning head that comes in the kit.

Replacement Telescoping Pole

#R4400B \$39.99 List

Pole can be purchased separately for use with the Waterline Brush, #4410. Telescopes from 34 to 86" (0.9–2.2 m).

FSR Fiberglass Stain Remover

#790

16 fl. oz. (0.47 liter)
 \$10.99 List

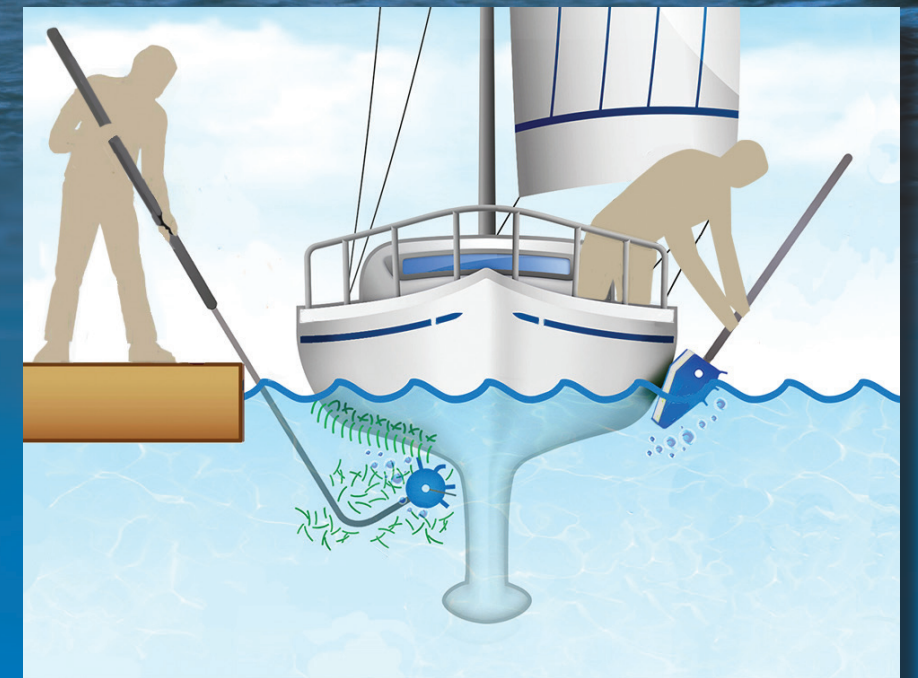

FSR is a stain removing gel that is thick enough to cling to vertical surfaces. Removes rust stains and yellow waterline stains well. Approved for use by the US Navy.

FSR Big Job

#792

67.8 fl. oz. (2.0 liters)
 \$29.99 List

**#4400
UNDERWATER
HULL CLEANING KIT**

Includes both stiff & soft cleaning fins

Extends up to 126" (3.2 m)

The kit includes:

- Buoyant foam head with cleaning fins. 4.4 lbs. of buoyancy (2 kg) powers scrubbing on the upstroke.
- Curved ergonomic tube.
- Telescoping pole extending from 34–86 in. (0.9–2.2 m).
- Extension pole for a total length of 12.5 ft. (3.8 m).

The Underwater Hull Cleaning Kit weighs just 3.2 lbs. packaged (1.5 kg). The clamshell package is recyclable.

Your boat with a clean hull is up to 30% faster

Fuel cost savings as much as 20%

No toxic chemicals, 100% recyclable

Quick and easy—buoyant tools help scrub

SCRUBBIS underwater hull cleaning is as much environmentally friendly as it is the boat owner's best friend. All boats attract algae, grasses, moss, barnacles, and worm casings in both fresh and salt water. Depending on where you keep your boat, this bottom growth can be aggressive and 'set' itself to your boat's hull in short time. Regular maintenance with Scrubbis includes a bi-weekly cleaning in some conditions. Even if you hire a diver to clean your boat's bottom, using Scrubbis can mean hiring that diver fewer times over the season—finally, a marine product that pays you back!

More savings are realized as regular light cleaning with Scrubbis removes bottom growth with less paint loss than aggressive cleaning. When the replaceable cleaning head eventually wears out, it can be recycled—a plus for the environment. Using Scrubbis saves money and reduces your footprint on Planet Earth.
