ResQLink Personal Locator Beacon is activated.
406 MHz Distress Message, including GPS coordinates, is sent to worldwide emergency satellite network.

Distress Message Relayed
406 message and GPS coordinates are sent to the closest local Search and Rescue organization.

Search and Rescue Dispatched
GPS coordinates and a 121.5 MHz homing signal lead rescuers to your location.

*Based on test report from accredited laboratory.

RescueME™
PLB1
World’s Smallest PLB
Good things come in small packages. This was one of our key design principles with the RescueME PLB1. While small in stature, the PLB1 is a full-featured PLB including all the essential safety technology found in our classic ResQLink line. The PLB1 comes standard with a buoyancy pouch allowing it to safely accompany you on your trips over land and water.

Features include:
- Ultra Small & Light weight
- Fast GPS Acquisition
- Built-in LED Strobe

Advanced Testing with Messaging
All our beacons function subscription free. But we do offer 406Link for our customers who wish to maximize their product experience. 406Link provides an advanced testing service with customized messaging.
