Patented 8-inch no-scratch sleeve extends your reach, protects your fingers and easily fits into tight areas.

100% viscose felt material won't tear like foam. Self-cooling design means ball won't burn surfaces. Thin polishing fins conform to fit into small places – like engine heads and spokes.

HOG WILD OVER THIS ONE.

This tool will help you buff hard-to-reach areas in seconds. Safely & easily. **Perfect for** polishing bike hardware including plastic tail lights; for removing bluing, road film & burn marks from pipes; removes oxidation and light scratches from plastic windscreens; easily fits in and around engine; perfect for mag or spoked wheels. **The Flitz Buff Ball** won't tear like foam. Fits any 3/8-inch drill or air tool. Buffs evenly—no low spots. Buffs at speeds up to 2,500 rpm. Self-cooling. Won't scorch or burn clearcoat. Washable* and reusable.

* Washable Guaranteed ONLY when used exclusively with Flitz products.
