

WINDEX[®] J-BASE[™]**INSTRUCTIONS****#3125 J-BASE for Windex 10.Sport**

Spare or replacement for the base that comes standard with Windex 10.Sport.

#3155 J-BASE for Windex 15

This optional mount for Windex 15 provides more versatility and reduces overall weight aloft by 15 grams when substituted for standard Windex 15 mounting base.

The J-Base comes with two #10 (5 mm) self-tapping screws. Drill a pilot hole in mast, apply silicone sealant or Loctite[®] and screw into mast. Installation of J-Base can also be accomplished by tapping the mast for 3/16" (5 mm) machine screws or by using epoxy putty to affix base to the mast.
