

RMK-3055 Shown

RMK Series rail mount kits are designed specifically for Ganz GSP series solar panels. Components include aluminum tracks which attach to the back of the panel and sliding clamps which can be positioned and locked anywhere along the tracks. These kits make solar panel mounting quick and easy on side or stern rails, flybridge rails, etc.

- Fully Adjustable mounts include rail clamps and tracks
- Bushings included for attachment to 7/8" or 1" rails. (call for other rail diameters)
- Panels can be adjusted to any angle from horizontal to vertical position
- Easy removal and angle re-adjustment using thumbwheel screws
- Marine grade anodized aluminum and stainless components
- Pre-drilled holes in tracks match mounting holes on Ganz GSP solar panels
- Hardware included for mounting tracks to solar panel

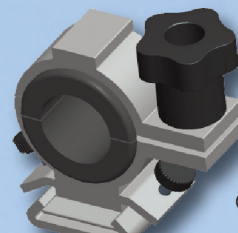

GSP Series Solar Panels

Rail Mount Part#	Fits Solar Panel Part#	Included:
