

KAPPAMPK415

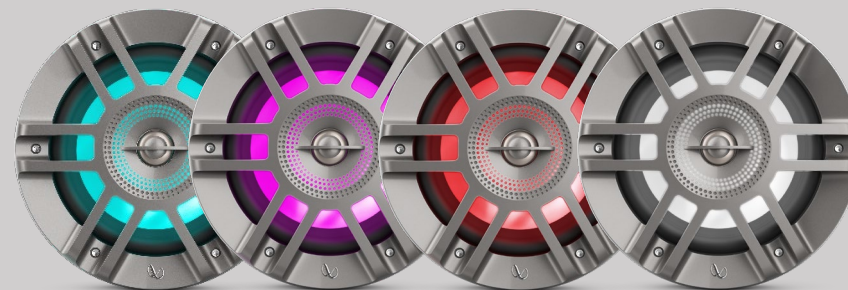

- marine digital media receiver
- works with your boat's NMEA 2000 system
- works with SiriusXM's satellite radio tuner
- RGB Control with MIL-LEDPWR box
- compact design fits into standard gauge openings
- built-in 2-ohm stable amplifier (25 watts RMS/50 peak x 4 channels)
- built-in Bluetooth with ID tagging for music streaming
- global AM/FM/WB tuner
- marine-rated watertight face
- inputs: rear aux input, rear charging USB input (for USB drives); video input
- outputs: 6-channel preamp outputs (2-volt front, rear, and sub)
- warranty: 1 year

REFPRV415

INF4555A

- 5-channel marine amplifier
- 45 watts RMS x 4 + 320 watts RMS x 1 at 4 ohms
- 65 watts RMS x 4 + 500 watts RMS x 1 at 2 ohms
- 130 watts RMS x 2 bridged at 4 ohms + 500 watts
- Class D amp technology
- front and rear channels:
 - variable high- and low-pass filters
- subwoofer channel:
 - low-pass filter
 - bass boost on subwoofer
 - phase switch (0, 180 degrees)

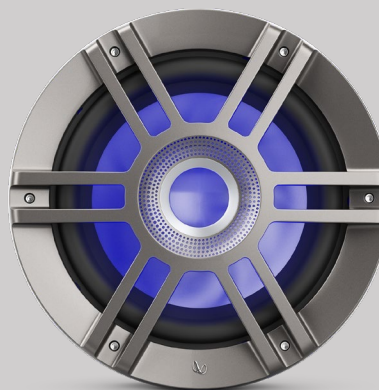

KAPPA6125M

- 6-1/2" 2-way marine speakers (pair)
- multi-color RGB LED lights
- Plus One woofer cone for outstanding performance
- grille-mounted Mylar tweeter
- one-piece cast polymer basket
- IPX5 rated for water resistance
- power handling: 100 watts RMS (300 peak)

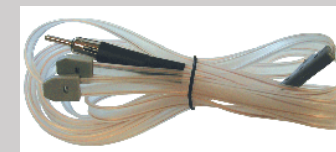

KAPPA1050M

- 10" marine subwoofer with multi-color RGB LED lights
- choose 2- or 4-ohm impedance with the flip of a switch
- polypropylene cone with rubber surround
- one-piece cast polymer basket
- IPX5 rated for water resistance
- available in Titanium or White
