PRODUCT OVERVIEW

The Revolution Continues with the extension of the award-winning Apollo Series with the NEW RA670 marine stereo. The Apollo 670 inherits key audio innovations and technological brilliance from the award-winning Apollo RA770, reembodyed in a more compact form factor. Experience the powerful features including optical audio for connection and audio playback from modern TVs, Wi-Fi audio streaming* and over-the-air software updates* via the Fusion-Link™ app. With the power of advanced DSP technology, the RA670 delivers you a technically superior listening experience - without the need for you to have a technical understanding. Enjoy the freedom of musical choice with Fusion's PartyBus™*, the audio distribution network of the future.

HIGH QUALITY AUDIO THROUGH DSP

The power of Fusion's Digital Signal Processing (DSP) enables the optimization of Fusion speakers in each audio zone on your vessel. Our system approach ensures every step of the audio chain is optimized through calculations by our engineers to deliver a technically superior listening experience – without the need for you to have a technical understanding. From the kick drum to your eardrum Fusion DSP reproduces your music the way the musicians intended.

TRUE-MARINE™ PHILOSOPHY

Fusion's True-Marine design philosophy stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real world boating applications, our customers are assured that the equipment they fit into their vessel will deliver quality entertainment season after season - the Apollo 670 comes with a 3 year warranty.

FUSION-PARTYBUS™ VIA ETHERNET*

The power of PartyBus enables other PartyBus products on the network to connect to the RA670 (via Ethernet) in Party Mode and play the same perfectly synced audio source through the entire vessel. Opt into Personal Mode on any PartyBus enabled product and listen to available audio sources from your stereo in the area of your choice without disrupting Party Mode in the other areas of the vessel.

FUSION-LINK CONTROL

Fusion-Link makes control of your on-water entertainment easier than ever. Quickly find your favorite song, tune in to the sports or turn up the volume all from your partnered Multi-Function Display (MFD), compatible smartphone or Garmin watch.

(* When connected to a wireless router or integrated into a Wi-Fi enabled Apollo Series stereo network.

(**) A SiriusXM Connect vehicle tuner and subscription required to access SiriusXS satellite radio (available in USA only). DAB+ radio requires the addition of an MS-DAB100A module (available in Europe and Australia only, does not support traffic and weather).

KEY FEATURES

The **Apollo RA670**, with its innovative technology and design, offers a new world-class audio entertainment experience, featuring:

KEY FEATURE

The Apollo RA670 harnesses the power of Fusion DSP, letting you optimize each audio zone on your vessel with your Fusion speakers, for premium listening in any environment.

The power of PartyBus™ enables other PartyBus products on the network to connect to the RA670 (via Ethernet) in Party Mode and play the same perfectly synced audio source through the entire vessel. (*)

When integrated into a network, enjoy the clarity and quality of Wi-Fi audio streaming, along with over-the-air software updates allowing you to keep your system up to date with the latest features with convenience. (*)

KEY FEATURE

Fusion's True-Marine design philosophy stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real world boating applications, our customers are assured that the equipment they fit into their vessel will deliver quality entertainment season after season.

KEY FEATURE

Fusion-Link™ is the industry standard protocol for on-water audio integration and control. Fusion-Link enables you to control the entertainment right from your partnered marine Multi-Function Displays, compatible devices and Garmin watches.

Up to three independent audio zones are available for a customized listening experience across your vessel, each with advanced localized audio options, including volume limits, zone naming, tone control, balance, disabling zones and more. Note that Subwoofer and full range line outs require additional amplification.

The color LCD is optically bonded to improve durability and protection against condensation and fogging, and is optimized for daylight viewing.

Enjoy confidence that your Apollo RA670 will last season after season in the harsh marine and outdoor environment. Meeting both IPX6 and IPX7 international standards for water resistance from the front panel when installed correctly, the RA670 is built to last on board.

Class-D amplifier delivers a higher efficiency and greater output, meaning you can listen to your music louder for longer without worrying about battery drain.

280 W peak power output

2 Ohm stereo stable for wiring up to 2 speakers per channel

The compact design of the Apollo 670 increases installation options and versatility making it easier to get a premium marine stereo onboard.

(*) When connected to a wireless router or integrated into a Wi-Fi enabled Apollo Series stereo network.

ROCK YOUR BOAT

New Sat Radio Marine Antenna Bundle

Activate SiriusXM Audio On Your Boat For the '22 Season

Add SiriusXM To Your SiriusXM-Ready Stereo. Includes 3 Antenna Mounting Options

FIRST 3 MONTHS FREE

OR

12 MONTHS FOR \$99

See siriusxm.com/activatenow. Credit card required.

HOW IT WORKS

SXV300M1 is compatible with SiriusXM-Ready marine and RV stereo receivers from these manufacturers in 2022. Visit siriusxm.com/SXV300compatibility for SiriusXM-Ready stereo manufacturer compatibility. Not compatible with legacy Sirius-Ready, XM-Ready or SAT Radio Ready stereos.

Compatible with any SiriusXM-Ready® stereo

SXV300 Connect Tuner & Marine/RV Antenna Model #: SXV300M1

MARINE/RV ANTENNA FEATURES

- Flexible Installation: Surface, Low Profile with Base, and Pedestal Mounts.
- Compatible with third-party 1"-14 threaded masts, and rail mounts (sold separately).
- Antenna with 6" pigtail and 25' antenna cable to allow for optimal placement.
- Best antenna solution for both metallic and non-metallic mounting applications, such as boats or RVs.

PACKAGE CONTENTS

- SXV300 Connect Tuner
- Marine/RV Antenna
 - 25' Antenna Cable
 - Three Mounting Accessories: Surface, Low Profile with Base, and Pedestal Mounts
- MSRP: \$99.99
- Model # SXV300M1

ANTENNA MOUNTING OPTIONS

Surface Mount

Low Profile with Base Mount

Pedestal Mount

SPECIFICATIONS

SXV300 Connect Tuner

- Dimensions: 3.42" (W) x 2" (H) x 0.7" (D) / 87mm (W) x 51.8mm (H) x 17.9mm (D)
- Weight: 3 oz / 85g
- Pigtail Cable Length: 25.6" / 650mm
- Power Requirements: 12v DC, 0.3 A (MAX) supplied by boat or RV
- Operating Temperature: -4°F to +158°F / -20°C to +70°C

Antenna

- Mounting Options: Surface, Low Profile with Base, Pedestal
- Antenna Pigtail Length: 6" / 152mm
- Antenna Pigtail Connector: TNC Female
- Extension Cable Length: 25' / 7.6m
- Extension Cable Connectors: TNC Male & SMB
- Threaded Extension: 1" / 25.4mm
- IPX67 rated

NOTE: The SXV300 Connect Tuner is not marinated. It should be mounted in a clean, dry location.

OFFER DETAILS: Purchase an eligible receiver from an authorized retailer. Activate the receiver with a Platinum subscription plan directly with SiriusXM by 12/31/22 with your choice of either receiving your first 3 months free with a \$15 activation fee or paying \$8.25/month for your first 12 months with no activation fee. **After the introductory period, your subscription will automatically renew each month thereafter and your credit card will be charged at the then-current monthly rate for the Platinum Plan (currently \$22.99/month). Fees and taxes apply. Please see our Customer Agreement at www.siriusxm.com for complete terms and how to cancel, which includes online methods or calling SiriusXM at 1-866-635-2349.** All fees, content, and features, and qualifying subscription package are subject to change. This offer cannot be combined with any other and can be modified or terminated at any time. Offers good only on new radio activations. Visit www.siriusxm.com/nevermissabeat to activate your subscription and for current rates.
