

Keep Your Boat Clean Without Impacting The Preventer

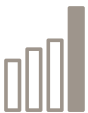

Waterless Wash

Cleaning your vessel can sometimes seem like a task not worth doing after a long day on the water. That is until the next time you use your boat and pay for the sins of not cleaning properly after your last voyage. Mold and Mildew can grow out of control. By using the Xanigo Marine Mold and Mildew Prevention System and quickly cleaning in between uses with Waterless Wash and Fabric Refresher, your boat will remain protected, clean and fresh.

THE BENEFITS

Use the spray bottle and a microfiber cloth to wipe down the seats and other areas where mold may appear more often. A ten minute job and the preventer will remain active.

Keep your boats resell value in tact by not allowing your interior to fall victim to mold and mildew. Also, save significant costs in time or money by eliminating heavy cleaning or detailing.

Easy application allows you to treat your boat right at your dock or on your trailer. Nothing is faster and more effective.

PROTECT YOUR ASSET

EXTEND BOAT LIFE

RETAIN BOAT VALUE

"Great product. Easy to apply. Preventing mold is the way to go. Waterless Wash and the Preventer are a great combo."
