LIQUID & POD
SOLUTIONS

Mobile living made easy.

DOMETIC

HIGHLY EFFECTIVE IN BREAKING DOWN SOLIDS AND REDUCING ODOR

SIZE	TYPE	DOSE
4 oz 6-pack	Liquid	4 oz / 40 gal
32 oz	Liquid	4 oz / 40 gal
1 gallon	Liquid	4 oz / 40 gal
12 pod bag	Dry / Pod	1 pod / 40 gal

Key Benefits

- Line of liquid and pod solutions to treat marine black and gray water holding tanks
- Enhances bacteria in waste transfer sites (septic tank/waste treatment facility), helping the process of waste breakdown
- Contains a highly effective odor controlling bacteria-based technology
- Enzymes break down waste solids to maintain a clog free environment
- Has a light appealing fragrance for open system applications (portables and gravity toilets)
- Helps keep tank sensors clean and unobstructed
- Works in black or gray water tanks
- Less packaging material per dose than most competitors' Enzyme products
- No Formaldehyde or Bronopol
- Concentrated formula

1. CALIFORNIA COMPLIANT

Approved for use throughout North America

*Other 8oz. bottles

*Our 4oz. bottles

2. CONCENTRATED FORMULA

We don't use more water than is needed in our formula so our customers have less packaging to recycle. Less packaging means improved sustainability.

3. ENVIRONMENTALLY BENEFICIAL

The beneficial bacteria in our formula will continue to work and benefit downstream systems whether the waste is pumped into a septic or municipal treatment system.
