

NEW SUZUKI® HUB KITS

For 150-300hp with 4.75" Gearcase applications
TRADE ONLY SELL SHEET

Available Early Q1 2025

- New kits developed due to OEM fitment change by Suzuki for 2023+ model years.
- These hub systems will also work on legacy 2022 and prior model years.
- Replacing Suzuki 507 & 707 with New MasterGuard® Lifetime Warranty 517 & 717 SuperDuty Kits.
- Introducing an All New 817 MasterTorq® 1 Year Warranty Sound Dampening Hub Kit [SDH].
- Scan to access all product information and marketing assets today: 

These new installation/hub kits will impact the sales of current 507 and 707 hub kits. There will be ample time to draw down 507 and 707 inventories during this transition because of the enormous amount of 2022 and older Suzuki outboards in the market.

507 Hub Kit Transition [remains a current stocked part indefinitely]

30% of current 507 unit sales are projected to be replaced by the 517 for Suzuki 4.75" gearcase applications while 70% of historic 507 sales will continue going forward for Honda® and Tohatsu® 4.25" gearcase applications.

707 Hub Kit Transition [supersede to 717 Hub kit after 707 inventory is depleted]

707 will be superseded to the 717 kit [sell through 707 kit first, as there are minimal 2023+ Suzuki applications in the field needing aftermarket prop replacements]. The 717 will eventually have similar annual unit sales as the 707. For now, order 717 inventory to cover 2023+ Suzuki applications even if you currently have 707 in stock.

817 Hub Kit [all new stocked part]

The 817 MasterTorq Sound Dampening Hub will create incremental sales with estimated sales of 30% of current 707 unit sales. *Note: 817 hub only needed on model years 2023+ with lower units that are noisy.*

Plan to take delivery of all these new hub kits once available to avoid missing sales for 2023 and newer Suzuki Outboards. **New hub kits will be available for shipment from Turning Point Distributors Early Q1 2025.**

NEW PART #	MODEL #	STOCKING ORDER SUGGESTION
11501700	517	30% of 507 Sales, reorder 507 @ 70%
11701700	717	85% of 707 Sales
11801700	817F	30% of 707 Sales

SUZUKI® INSTALLATION KIT APPLICATION GUIDE

Turning Point Hub Kit Brands	Sub Brands	Specialized Solution	HP Gearcase	Engine Brand	Hub Kit Model	Aluminum Propellers	Stainless Steel Propellers (under 200hp)	Stainless Steel Propellers (200+hp)	Material Surface	Material Spindle	Spindle Length	Warranty

MasterGuard	Super Duty	200+hp with Stainless Steel Props	200-300+hp 4.75"	SUZUKI	717			✔	Nylon/ Glass Filled	Marine Bronze	Full	Lifetime
MasterTorq	SDH (Sound Dampening Hub)	Shift Dog Noise (for noisy lower units)	150-300+hp 4.75"	SUZUKI 2023+	817		✔	✔	Rubber	Marine Bronze	Full	1 year
Compatible Turning Point Prop Housing Brands Note: 500, 700, 800 Hub Kit Series are also Compatible & Interchangeable with Competitors' Hub & Prop Systems. Works with Mercury® Flo-Torq®, Michigan Wheel® XHS®, Solas® Rubex™ hubs & prop housings.						Hustler	Express: Mach3, Mach3 OS & Mach4					

To find the correct Prop & required Kit locate your engine/HP/model/year below, Required kit located to the right, use the color and shape to find a compatible propeller housing that works with the kit.

STEP 1: Find The Required Installation/Hub Kit

Engine / Drive Information	Gearcase Spline	Kit #	Part #	Prop Family
SUZUKI® Note1: See Installation Kit Application Guide for kit selection. 817 used only for 2023+ model years with noisy lower units. Note2: DF 4 Stroke use Express Mach3 OS series props only. DT 2 stroke: 150hp to 225hp / DF 4 stroke: 150 to 300hp	4.75" 15	517	11501700	
		717	11701700	
		817F	11801700	

Note*1: Prop Brands, Express Mach3 (Express M3) 3 Blade, Express Mach3 OS (Express OS) large diameter 3 Blade, Express Mach4 (Express M4) 4 Blade.
 Note*2: 500, 700, 800 Hub Kit Series are Compatible & Interchangeable with Competitors' Hub & Prop Systems. Works with Mercury® Flo-Torq®, Michigan Wheel® XHS®, Solas® Rubex™ hubs & prop housings.
 Note*3: 2022 and older Suzuki applications use MasterGuard Hub Kits, as they rarely experience shift dog lower unit noise and vibration.

STEP 2: Choose A Propeller
