BAR-VA-1W

BAR-VA-1B

ACTIVE VHF EXTENSION SPEAKER WITH DSP

The BAR-VA-1W (White) and BAR-VA-1B (Black) Active VHF extension speakers provide loudest and clearest amplification of your VHF radio. A built-in 10W DSP amplifier actively removes sound that falls outside of the human vocal range to help you hear those vital communications. Each unit is adaptable to three mounting configurations – switching between Helm and Overhead Mount is achieved by just rotating the included mounting bracket – or remove the bracket altogether for super sleek flush mounting.

PRODUCT SPECIFICATIONS

Ingress Protection	IPX6 (Currently testing for IP67 at time of printing)
Amp Peak Power Rating	12W
Amp Continuous RMS Power Rating	10W
Impedance (On VHF Output)	4 Ohms
Sensitivity (+/-3dB) 1W/1mtr on axis	83±3dB
Frequency Range	Limited to Human Vocal Range 300Hz to 4.5kHz
Magnet Type	NdFeB (Neodymium Iron Boron)
Cone Material	Polypropylene
Cone Diameter	59mm (2.5")
Chassis Material	ABS Plastic and Re-enforced Polycarbonate
Warranty	2 Years

PACKAGING DIMENSIONS

Gift Box Length	246 mm (9.7")
Gift Box Width	172 mm (6.8")
Gift Box Height	91mm (3.6")
Gift Box Weight	470g (1lb)
Quantity Per Carton	12PCS
Carton Length	512 mm (20.1")
Carton Width	364 mm (14.4")
Carton Height	300 mm (11.9")
Carton Weight	6.6kgs (14.55lbs)
HTS Code	8518.21.0000
