

Skipper Spray System

NEW

This product is built with HoseCoil's new top-of-the-line high performance polyether material.

20' Standard Series Coiled Hose

The 3/8" ID coiled hose features a 4" coil for ease of handling and includes strain relief on spigot end fitting and soft rubber grip on nozzle side. Built with 3/4" garden style fittings, it fits all standard US hose connections.

20'

Skipper Spray System

Part# HS2011K

Includes the Boat Bumper Nozzle and 20' Standard Series Coiled Hose

Boat Bumper Nozzle

Big Rubber Tip - Protects gelcoat and other boat surfaces from drop damage and provides a better grip for adjusting spray pattern with soapy hands.

Adjustable Spray Pattern - Varies from wide angle for rinsing to focused spray pattern for dislodging the tough stuff.

Metal Body Construction - Adds strength and durability to prevent nozzle damage when dropped.

Solid Brass Spray Mechanism - Brass and Stainless Steel components provide more precise flow patterns and longer lasting performance.

Plastic Interface - Eliminates corrosion between metal fittings of hose and nozzle in saltwater environment.

Swivel Fitting - Keeps spray nozzle properly aligned when attached to a sturdy coiled hose.
