Quick Connect Wiring Connector makes removing or replacing the pump easy

Le connecteur de câblage à branchement rapide facilite le retrait ou le remplacement de la pompe.

This COMMODORE Macerator Pump is a BEAST. With it's powerful triple-sealed motor, quad-blade chopping design, powder-coated shell, self-priming suction, and rear anti-clog technology, this pump will take anything that you throw at it! That's what makes it perfect for emptying your dirty and gunked up waste tanks, holding tanks, fish boxes and livewells. And the Quick-Connect Wiring that comes standard on most COMMODORE products makes removal or replacement a piece-of-cake.
