

COMMODORE

02-Series Float Switch CM-2-BS

- Fully Submersible
- Converts Any Manual Bilge Pump to Automatic Function
- Works on Any Bilge Pump with a Current Draw Less Than 18A
- Unique and Reliable Ball Bearing Design
- Superior Reliability
- Easy Installation

The COMMODORE 18-02 Automatic Float Switch converts your bilge pump to automatic function. The unique weighted ball bearing design allows for more reliable operation than a traditional reed switch float switch. This switch can be used with any make or model bilge pump drawing up to 18 Amps.
