

NEW - Barton 25mm T TRACK Genoa Cars

Barton Marine introduces its new sleek range of Genoa Cars designed to run on 25mm (1 ") T Track. All GT cars are manufactured from high grade aluminium with our unique Spectro anodised finish for superior protection in marine environments. A black anodised finish is also available. Designed over 18 months to meet the requirements of OEMs, riggers and sailing enthusiasts who want high performance and longevity captured in contemporary design. The new range is a class above the norm and features moulded nylon inserts to fight corrosion and prevent damage to the low friction anodise finish and ensure smooth running in all marine environments.

- Spectro anodised finish or black anodised
- Stainless steel plunger stops with positive action
- Moulded nylon slide inserts ensure free running
- Large, easy grip plunger knobs
- Twist and Lock up plunger facility

25301GT
2:1 Towable Car

25100GT
Pin Stop Car

25221GT
2:1 End Stop & Becket

Cars are compatible with most makes of T track. This size track is suitable for 7-10m (23'-33') cruising boats

Add B to the end of the part number for black anodising
