

NEW - 32mm Genoa Cars Pin stop, Towable in Standard & Heavy-Duty Options

Barton Marine introduces its new sleek range of Genoa Cars designed to run on 32mm (1 ¼") T Track. All are manufactured from high grade aluminium with our unique Spectro anodised finish for superior protection in marine environments. A black anodised finish is also available.

Designed over 18 months to meet the requirements of OEMs, riggers and sailing enthusiasts who want high performance and longevity captured in contemporary design. The new range is a class above the norm and features moulded nylon inserts to prevent damage to the low friction anodise finish and ensure smooth running in all marine environments.

All Genoa Cars in this range are available in a heavy-duty HD version for large craft or for larger load applications.

- Spectro or Black anodised finish
- Stainless steel plunger stops with positive action
- Moulded nylon slide inserts ensure free running
- Large, easy grip plunger knobs with twist and lock facility
- Heavy duty genoa car options
