303® ULTIMATE DEODORIZING CLEANER

When your boat smells clean and fresh, it feels like yours again—comfortable, welcoming, and ready for anyone to climb aboard. But is it really clean? The smell of fish, mildew, and must always seem to linger inside the boat. Regular cleaners just mask the odor—or worse, mix with it. You need something that will do more than just mask it.

303® Ultimate Deodorizing Cleaner is an advanced formula that removes tough stains and smells with ease, tackling everything from marine grime to stubborn spills.

DIRECTIONS

- Spray product directly onto soiled area – wet or dry.
- Use a clean microfiber towel or soft bristle brush to agitate the soiled area.
- For stubborn spots or harsh smells, allow product to sit on the area for a few minutes before wiping clean.
- Rinse with clean water if desired.
- Dry surface as normal.

AVAILABLE IN:

SKU	SIZE	CASE PACK
