

ARCO Zeus A115/3500W-24V Heavy Duty High Output Alternators

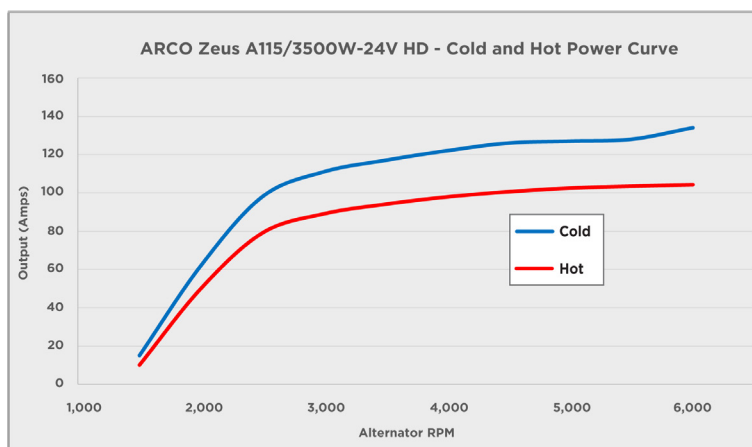

Built to Deliver Extended Power

BENEFITS

- Dual internal fans maximize cooling, improving efficiency and durability
- Designed for Extended Duty Operation
- Maximum Speed 10,000 RPM
- Suitable for most diesel applications
- External Regulation Required. For optimal performance, use the ARCO Zeus Bluetooth Alternator Regulator

SPECIFICATIONS	
Voltage	24V
Field Type	P
Rotor Poles	12
Weight	18.7 lb (8.5 kg)
Regulation	External Only (EX)
Cut-In RPM	1,288
Maximum Alt RPM	10,000
Rear Battery Post	M8 Thread
Standard Pulley	K8 59 mm
Shaft Diameter	7/8 in (22.22 mm)
Avalanche Diodes	50 amps
Max Output (Cold)	132 amps
Sustained Cruising Output (Hot, 6,000 RPM)	104 amps
Sustained Idle Output (Hot, 3,000 RPM)	89 amps
Max Continuous Operating Temperature	125 degrees C

ARCO PART #	DESCRIPTION
4412	24V 115A Large Case, J-180 4" Mount, Rear Battery Post, Externally Regulated, Case Ground, 59 mm K8 Pulley
4413	24V 115A Large Case, Pad Mount, Rear Battery Post, Externally Regulated, Case Ground, 59 mm K8 Pulley
