

GMI™ 40 MARINE INSTRUMENT

AND UPDATED WIRED AND WIRELESS SAIL PACKS

PRODUCT OVERVIEW

Master the seas with the GMI 40 multipurpose marine instrument. It's easy to use and has a sleek 4.3" touchscreen display that supports real-time wind, speed, depth, heading, engine, fuel data and more. GMI 40 seamlessly integrates with your compatible Garmin chartplotters and wireless devices. New GMI 40 bundles offer complete sailing packages with multiple display, depth, speed and wind sensor options.

GMI™ 40 MARINE INSTRUMENT

AND UPDATED WIRED AND WIRELESS SAIL PACKS

KEY FEATURES

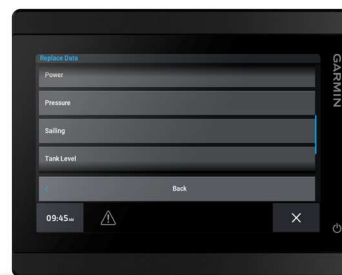

SLEEK AND STREAMLINED

This modern touchscreen display has an intuitive interface and edge-to-edge glass that complements the look of your Garmin chartplotters.

COMPLETELY INTEGRATED

As an NMEA 2000® certified device, your GMI 40 marine instrument integrates smoothly with compatible systems across your boat.

SIMPLE YET CUSTOMIZABLE

Flexible gauge sets and page layouts let you place the data you need exactly where you want it.

A NETWORK YOU CAN TRUST

Garmin BlueNet™ offers streamlined connectivity with compatible Garmin devices for full-system integration.

SEAMLESS DATA

See the shift before you feel it with easy-to-read real-time wind, speed, depth and heading insights from your compatible devices.

SIMPLIFIED ENGINE DATA

See engine and fuel data from your compatible devices at a glance to easily monitor levels and optimize performance.
