MARINE

GRAND SLAM

BUILT WITHOUT COMPROMISE.

Premium **Grand Slam** sport fishing systems engineered for anglers who demand absolute performance offshore.

PRECISION ENGINEERING
Innovative design that improves performance.

SALTWATER READY
Built with premoum materials for harsh marine conditions

LIMITED 5-YEAR WARRANTY
Backed by our commitment to quality and reliability.

TOURNAMENT PERFORMANCE
Trusted by serious anglers when it matters most.

GS-600

THE NEXT EVOLUTION OF OUTRIGGER PERFORMANCE.

The patent-pending GS-600 Outrigger Mount redefines premium outrigger performance with a gear-driven planetary system that reduces the effort required to rotate outrigger poles up to 27 feet.

Its innovative twist-collar separates lift and rotation functions for smoother operation, while the pin-locking arm securely holds all standard 1-1/2" outrigger poles.

Built from high-grade stainless steel with advanced corrosion protection, the GS-600 delivers exceptional control, reliability, and durability for serious offshore anglers.

PLANETARY DRIVE

Smooth, effortless rotation.

TWIST COLLAR

Independent lift and rotation.

PIN LOCK

Secure pole retention.

PREMIUM STAINLESS

Built for offshore durability.

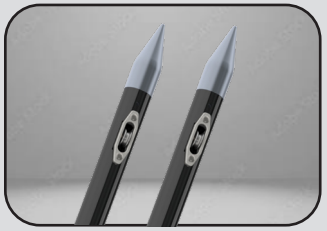

COMPELTE YOUR SYSTEM

GRAND SLAM 300

Enhanced safety and performance.

- Single handle operation
- Premium stainless steel & anodizedaluminum construction
- Ergonomic crank handle

CARBON FIBER INTERNALLY RIGGED POLES

Lightweight strength for serious offshore anglers.

- 19', 22', 25', 27' lengths
- 3-section pole with latching Twist & Lock mechanism connection
- Internally rigged halyard lines

GS-860

Electric VHF Antenna Mount

- Fits standard VHF antennas up to 8'
- No under-mount clearance needed
- Manufactured from stainless steel

GS-960

Electric Masthead Anchor Light

- Certified for USCG-required 3-nm
- Reliable long-life LED's 5-Watt
- Stern Light and 10-watt Anchor

BLACKED-OUT SERIES

BUILT TO THRIVE WHERE CORROSION NEVER SLEEPS.

Our black powder coat finish is engineered for harsh marine environments, featuring a high-density, non-porous thermal-bonded barrier that helps protect against salt spray, humidity, rust and white rust oxidation.
