Unleashed.

Your mobile devices will now work everywhere

Only one communications company connects the entire globe

Iridium commands the world’s furthest reaching network, making it the only truly global communications company with solutions that span from pole-to-pole. Iridium voice and data products provide superior communications solutions that allow global companies, government agencies and individuals to stay connected everywhere. With a unique, global ecosystem of partners, Iridium continues to create new, high-value capabilities that are leading the world into a new era of communication.

www.iridium.com
Your smartphone will work anywhere on the planet.

Iridium GO™ creates the first ever reliable global connection for voice and data communications on your smartphone or up to 5 mobile devices. No worries. No roaming charges. Just connected and in touch wherever you are, whenever you need, with the devices you rely on everyday.

Take personal communications further
Iridium GO™ is unlike anything the world has seen before. Powered by the world’s furthest reaching network, this compact, rugged and portable unit dramatically extends the capabilities of any smartphone, laptop or tablet by creating a satellite-backed Wi-Fi hotspot – anywhere on the planet.

Transform your smartphone
Iridium GO! instantly transforms your trusted device into a global communications powerhouse. For corporate climbers and weekend warriors, individuals, enterprises or governments, for anyone who is on the move, out of range or off the grid – by land or at sea – Iridium GO! enables reliable voice and data communications for your smartphone or up to 5 mobile devices.

Critical connectivity for all
No matter who you are, the ability to conduct business, connect with friends and family, access information, respond rapidly to any situation or simply stay in touch is critical, particularly beyond the reach of terrestrial networks.

Iridium GO! simplifies global communications for:
- Pilots, boaters and truckers
- Executive and diplomats
- Adventurers and explorers
- Government and NGOs
- Remote residents and vacationers
- Military operations
- Emergency and first responders
- Global and business travelers
- Anyone out of cellular range

A personal communications revolution
Iridium GO! enables satellite connectivity for your mobile devices where terrestrial networks cannot. Simply flip up the integrated antenna and the battery-powered unit connects quickly and automatically to the Iridium LEO satellite constellation to create an anywhere Wi-Fi hotspot within approximately a 30.5 meter (100 foot) radius. You can easily connect and operate multiple devices within this area using the Iridium GO! application.

Versatile
Iridium GO! supports a full range of global communications, including:
- Voice calls
- Email access
- Applications
- Social networking
- Photo sharing
- GIS tracking
- GPS tracking
- SMS two-way
- SOS alert

Mobile
You can take Iridium GO! anywhere. It’s small enough to fit in your pocket and, like other Iridium devices, tough enough to withstand rain, sand, dust and rough use. It can be carried, easily stowed in your backpack, or mounted in vehicles, aircraft and boats for mobile applications.

Innovative
Combining the best that both satellite and cellular phones offer, Iridium GO! is the first in a whole new category of personal satellite connectivity devices. It’s also a powerful development platform optimized for Iridium partners to build applications, extending communication capabilities even further in remote locations.

Affordable
Iridium GO! is an affordable solution for truly global connectivity. It leverages and extends your existing trusted devices, is compatible with Apple® and Android™ operating systems, and eliminates roaming charges. It allows connections to be shared among multiple users and is supported by affordable plans that keep voice and data costs reasonable.

Connect through Apps
Download, install, configure and connect with Iridium-optimized applications, available for Apple® and Android™ devices.

Iridium GO!
- Iridium GO! status bar
- Iridium GO! battery life
- Send quick GPS or check-in message
- Configure settings
- Send Twitter post
- Initiate voice call
- Set-up Wi-Fi data call
- Activate Emergency SOS

Iridium Mail & Web
- Draft and view email offline
- Configure email size to minimize connection time
- Queue up emails to be sent up to 15x faster than web-based services
- Retrieve emails from external accounts
- Block pop-ups, remove ads and background images, and
- Compress web pages for download speeds of 3-5x faster than uncompressed pages

Tech Specs
Dimensions:
- 4.5” x 3.25” x 1.25”

Durability Specifications:
- Military-grade ruggedness (MIL-STD 810F)
- Ingress Protection (IP65)

Easy to Use:
- Stable, lay-flat design
- Flip up antenna
- Built-in menu/status display

Flexible:
- Wi-Fi device ready
- App API for developers
- Robust accessory platform

STANDARDIZED
- Satellite
- Real Global
- Real Mobile
- Real Reliable

OPTIMIZED
- Voice
- SMS
- GPS Positioning
- Emergency Button
- Online Tracking
- Personal Cell Tower
- Email
- Photo Transfer
- Social Network

RUGGEDIZED
