MINN-KOTA

ULTERRA™

NEVER TOUCH YOUR MOTOR AGAIN, UNLESS YOU WANNA HIGH-FIVE IT.

With Auto Stow/Deploy and Power Trim, we won't blame you for getting excited about Ulterra™. Especially once you realize it comes with your choice of i-Pilot or i-Pilot Link, a multi-function foot pedal, and Universal Sonar 2. Now we're just showing off.

AUTO STOW/DEPLOY

Nothing makes fishing easier than Ulterra. Auto Stow/Deploy lets you get your motor in and out of the water using the included i-Pilot or i-Pilot Link remote.

POWER TRIM

Once your motor's in the water, Power Trim lets you easily adjust the motor depth for changing conditions, using your remote. Ulterra handles the busy work, so you can focus on fishing.

ULTERRA FOOT PEDAL

Ulterra's foot pedal lets you stow, deploy, trim up/down, and activate a Spot-Lock in addition to speed and steering controls. Includes 18' cord.

2-Year Warranty

NEW i-PILOT OR i-PILOT LINK WITH NEW PHONE APP

Boat positioning becomes automatic with the redesigned, GPS-powered i-Pilot or i-Pilot Link system. i-Pilot lets you set Spot-Locks, record paths, control speed and steering, and more. Link does all that plus the ability to control your motor from your Humminbird, follow depth contours, and automatically navigate to your favorite spots. Both systems feature reinvented Spot-Lock - the most accurate electronic GPS anchor ever - and have redesigned remotes with larger screens, more options, and Bluetooth technology, so you can connect to your smartphone for quick control of basic functions and easy software updates.
