Steering has never been this easy!
STEERING HAS NEVER BEEN THIS EASY!

What if you could steer your kicker motor without having to worry about the tiller arm or a bulky connection kit to your main engine?

What if you could fish or cruise without having to continuously adjust your course from your main helm? What if you could do all this wirelessly, with no cables to get in the way?

Intellisteer boat remote steering offers a full range of products that are easy to install, easy on the wallet and make fishing and boating a whole lot easier and more fun!

KEY FEATURES:
✔ Models for control of kicker motor
✔ Models for both cable and hydraulic steering systems
✔ Wireless control module plus handheld pendant - steering in the palm of your hand
✔ Steer, fish and cruise from anywhere on the boat
✔ Easy DIY installation - no need for professional installer
✔ 2 Year limited warranty - purchase with confidence
