

# LOWRANCE®

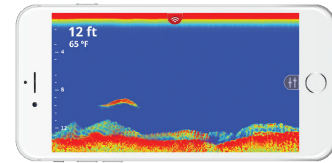

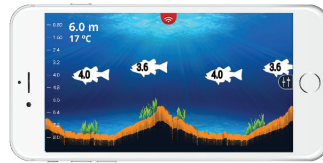

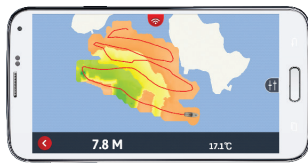

FISH HUNTER™ | PRO  
CASTABLE WIRELESS TRANSDUCER

## FishHunter PRO KAYAK FISHING | BANK FISHING | ICE FISHING

The days of having to own a boat to get quality fishfinding sonar are over. With Lowrance® FishHunter Pro, anglers fishing from the bank, dock or pier will know where to cast every time, getting sonar data from a wireless, castable tri-frequency transducer designed for stationary fishing. Take FishHunter Pro anywhere you fish, cast it into the water and watch the sonar returns on the free FishHunter app. Know Where to Cast™ with FishHunter Pro.

### Key Features

- No internet or cellular connection required
- Reliable WiFi connection with the best range up to 160 ft. (55m)
- Unique buoy-like design difficult to submerge, preserving WiFi connection
- Pick the best view for the way you fish from Fishing, Raw and Ice Fishing views
- Create custom Bathymetric (color contour) maps
- Integrated LED light for early morning/nighttime conditions
- Tri-Frequency transducer supporting 381kHz, 475kHz and 675kHz frequencies
- Free FishHunter App for IOS and Android devices
