

## SOFT CRATE KAYAK BAG

The Soft Crate complements storage techniques many kayak fishermen are already using. The soft, lightweight bag fits perfectly in a milk crate or rests on the deck of a kayak. Large bulk storage and detachable compartments allow you to customize the bag to meet your needs.

## V-CRATE KAYAK SYSTEM

The V-Crate is the first of its kind, specifically designed for kayak fishing. The unique shape wraps storage on either side for easy access. More storage abounds in the center module. The module is maneuverable, too – able to hinge backward in low clearance. But all this storage doesn't sacrifice size, as it remains compact enough to fit most kayak models.

\*Milk crate not included

### SOFT CRATE

- Lightweight design travels easily
- Fits securely in milk crate\* or rests freestanding as crate alternative
- Four-panel design carries as much or as little as you need
- Easily remove panels and utilize attachment points for customizable storage
- Large open interior with two sections of bulk storage
- Side storage panels double as sturdy carry handles

- Lid features large storage area and additional zippered pocket
- Numerous D-rings and two tool holders offer easy access to pliers, hook removers, etc.
- Secured by series of sturdy zippers, straps and latches
- Durable water-resistant fabric

### V-CRATE

- Unique V-shape provides easy side access – especially for those with limited mobility
- Each side holds two StowAway® utility boxes
- Angled design with rubber straps keeps tackle secure but open for easy viewing
- Large, open bulk storage in center module

- Waterproof compartment in base secures valuables
- Unit hinges backward to accommodate low clearance
- Side rail system easily attaches rod holders and other accessories
- Compact, elevated base fits most kayak models
- Detach main unit from base for easy transport or stowing
