- Full 1/2" flow.
- Audible "click" at each handle position.
- For thru panel mounting.

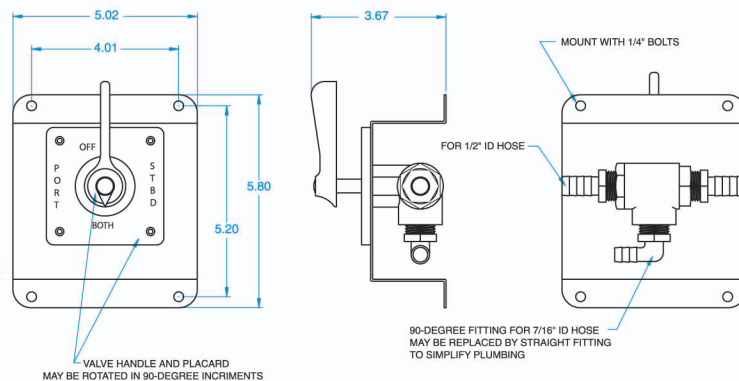

TS-350-T TANK SELECTOR KIT

TS-350-T Tank Selector Kit utilizes FV-350-T full flow valve (see above for details) mounted on an attractive stainless steel mount bracket and plumbed with (2) 1/2" hose barbs and (1) 7/16" hose barb.

Kit provides two covers designed to match your installation (port/starboard tanks or fore/aft tanks).

Handle can be relocated in 90-degree increments to align plumbing.
