

Wind Sensor

Benefits and Features

- Analog and NMEA 2000 certified versions
- Reliable quick release mount for easy service of the sensor
- Can be used with NMEA 2000 drop cable up to 6m length or with 30m backbone cable
- Plug-n-plug replacement for discontinued Garmin GWS 10 wind sensor

Technical Data

- Accuracy (direction) $\pm 1^\circ$
- Reading (direction) 1°
- Operating range (direction) $\pm 180^\circ$
- Accuracy (speed) $\pm 1\text{kn}$
- Reading (speed) $0.1 < 20$ (kn, m/s, km/h); $1.0 > 20\text{bft}$ (kn, m/s, km/h)
- Operation range (speed) $1.0\text{-}68\text{kn}$; $0.5\text{m/s}\text{-}35\text{m/s}$; $1.8\text{ }\text{126km/s}$; $1\text{-}12\text{bft}$
- Output range 1 value/sec.
