KEY FEATURES

IPX7 REMOTE INCLUDED

An IPX7 water resistant quick touch remote control is included with the MS-BB100 for easy audio control, featuring an embedded Bluetooth® wireless technology module for optimum performance. Volume adjustment, track skipping, source selection, power on/off and Bluetooth pairing mode are supported.

Note: For full menu access, the MS-BB100 requires the Fusion-Link wireless app, a compatible MFD or NRX Series remote on a powered NMEA 2000 network. The Fusion-Link app is available for free download from the Apple App Store and Google Play™.

MULTI-ZONE™ TECHNOLOGY

Up to two independent audio zones are available for a customized listening experience across your vessel, each with advanced localized audio options, including volume limits and zone naming.

Note: Subwoofer and full range line outs require additional amplification.

APPLE iOS AND ANDROID/WINDOWS MTP MEDIA PLAYBACK

Connect any Apple device supporting the Apple IAP2 Lightning connector via USB supported Android AOA device to play your music through the MS-BB100. Audio control on the MS-BB100 is limited to play, pause and skip functions from both the stereo interface and the Fusion-Link app via Bluetooth wireless technology.

DAB+ READY

Simply connect the optional MS-DAB100A Fusion DAB+ Module with active antenna (sold separately) to the MS-BB100 to experience high quality digital radio with on-screen station information. This DAB+ module is also IPX7 weatherproof and includes both pole mount and surface mount options for the antenna.

Note: Only available in regions that support DAB+.

FUSION-LINK CONTROL (WIRED & WIRELESS)

The Fusion-Link remote control app gives you the flexibility to control your onboard entertainment from anywhere on the boat, with multiple connectivity options available.

Connection options:

- NMEA 2000 network via a partnered Multi-Function Display.
- NRX Series remote via a stand-alone Fusion Remote Control Network.
- Bluetooth Wireless Technology via a compatible Apple or Android device.
- ANT via a compatible Garmin watch with the Fusion-Link Lite app.

Note: The wireless Fusion-Link app is available for free download for any compatible smartphone or device from the Apple App Store® or Google Play™. Fusion-Link Lite is available from the Garmin Connect IQ store..

AUDIO STREAMING

A2DP BLUETOOTH® WIRELESS TECHNOLOGY

Stream music from any device that supports Bluetooth wireless technology to the MS-BB100. Artists, titles and album art will be displayed on screen, with control from the remote, Fusion-Link enabled MFD or compatible device via the Fusion-Link app.

USB MEDIA PLAYBACK

Comprehensive control of any supported Apple or Android device or USB flash drive is easy with Fusion's intuitive, fully integrated user interface. Fusion's Alpha Search Technology makes navigation through thousands of tracks simple through an alphanumeric search. Android Open Accessory (AOA) allows access to your music library with play, pause and skip functions from any supported Android device.

Note: USB flash drive does not support Alpha Search Technology.

FUSION PRODUCT INFO

CODE	GARMIN PN	EAN-13 BARCODE
MS-BB100	010-01517-01	0753759149864
GIFT BOX DIMENSIONS		
(W) 247mm [9-3/4"] (H) 112mm [4-7/16"] (D) 412mm [16-1/4"]		

KEY FEATURES

SIDE FIN VCT™ COOLING

Fusion Vertical Convection Technology (VCT) allows the circulation of air around the heat sink fins for greater efficiency. The amplifier components are configured for optimal heat sink integration and enhanced thermal transfer to maintain a more efficient system.

EASY MOUNT CHASSIS

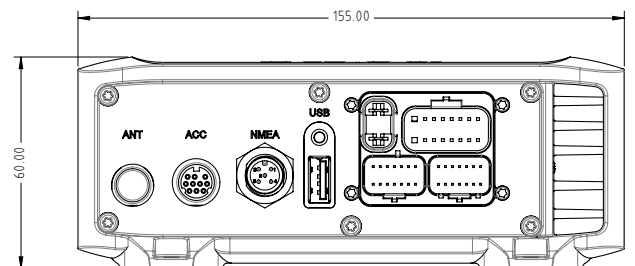

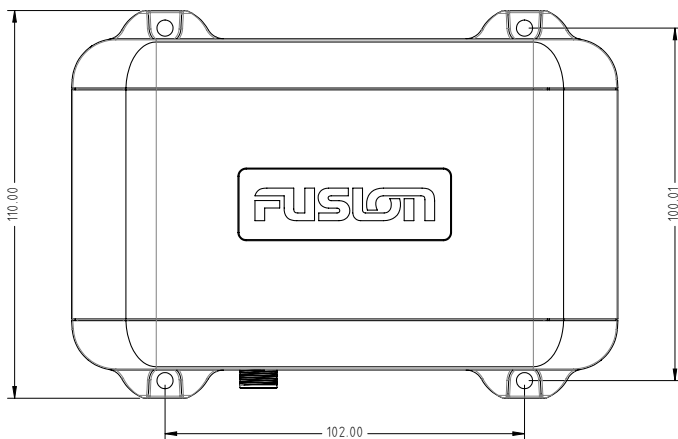

Simply secure your MS-BB100, plug and play for an easy entertainment setup.
