

NEW SIGNATURE SERIES 3 SPEAKERS

8.8" / 7.7" / 6.5"

MARINE COAXIAL SPEAKERS

NEW SIGNATURE SERIES 3 SPEAKERS

PRODUCT OVERVIEW

EXPERIENCE THE POWER OF MUSIC — REVAMPED

The **new, revamped Signature Series 3 speakers** push the boundaries of what is possible on the water even further — delivering Fusion's stunning signature performance now with **premium CRGBW LED lighting** found on luxury superyachts for an unparalleled on-water audio entertainment experience.

Replacing the existing Signature Series speaker range, the new Signature Series 3 speakers are available in three speaker sizes (8.8" 330 watts, 7.7" 280 watts and 6.5" 230 watts) and three styles (Sports White, Sports Chrome and Classic White) to fit a wide range of modern vessels and to enhance customers' time out on the water with premium, high-quality audio.

SIGNATURE FLAGSHIP ACOUSTIC PERFORMANCE

The new Signature Series 3 speakers deliver Fusion's stunning signature sound by incorporating the finest materials and acoustic technologies such as CURV cone, silk dome tweeters, fully sealed crossover components and optimized magnet structures for a premium, flagship acoustic performance.

TRUE-MARINE™ PHILOSOPHY

Fusion's True-Marine design philosophy stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their vessel will deliver quality entertainment season after season — the new Signature Series 3 speakers comes with a 3-year warranty.

INDUSTRY-FIRST CRGBW LED LIGHTING

Take your customer's boating experience to the next level with premium aesthetics and upgraded LED lighting found on luxury superyachts to help set the mood. The **new Signature Series 3 sports-style speakers are the world's first marine speakers to incorporate CRGBW LED lighting** for enhanced ambience.

Whereas normal RGB speakers have three LEDs (Red, Green and Blue), our CRGBW speakers have five LEDs (Red, Green, Blue, **Cool White** and **Warm White**). The benefit of having CRGBW in comparison with the industry standard RGB is the ability to create a wider range of color blends with 'richer' color tone, delivering a truly premium on-water sound and lighting entertainment experience.

DESIGNED TO COMPLY WITH ISO12216

The new Signature Series 3 speakers have passed stringent pressure and watertightness tests in accordance to ISO12216 (D1.1 for Areas II, III & IV). This is critically important as it ensures boat builders and customers alike are installing genuinely safe speakers on board their vessel, and achieving ISO12216 compliance is a recognition of the product's superior design and build quality.

IP65 WEATHERPROOF

The new Signature Series 3 speakers are rated IP65 for water and dust ingress protection, while also meeting industry standards for UV and salt fog protection. This makes them perfect for either indoor or outdoor installation on any vessel in the harsh outdoor marine environments.

CRGBW LIGHTING

FULL CONTROL OF THE ILLUMINATION

The **new Signature Series 3 sports-style speakers** illuminate an unprecedented spectrum of colors never before seen on a marine speaker. The ability to combine RGB with Cool White or Warm White produces a new palette of colors to help create a premium, more ambient atmosphere on board your customer's vessel.

Control of the color (static or dynamic), brightness, light mode and speed is made easy with the optional wireless remote control. The intuitive color select wheel allows the user to select whatever color they desire to help set the mood.

NEW SIGNATURE SERIES 3

MARINE COAXIAL SPEAKERS

FUSION
A Garmin Brand

KEY FEATURES

The new **Signature Series 3 speakers**, with their innovative technology and design, offer a new world-class audio entertainment experience, featuring:

KEY FEATURE

The innovative CRGBW lighting illuminates a wider range of colors with richer tones than standard RGB, to help set the mood for a premium on-water entertainment experience with enhanced ambience (sports-style speakers only).

KEY FEATURE

CURV is a woven fiber composite which is heat-pressed to form a lighter and stronger cone that delivers greater sound definition and higher output, whilst providing increased protection from marine conditions.

Fusion's True-Marine design philosophy stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their vessel will deliver quality entertainment season after season.

KEY FEATURE

The silk dome tweeter provides a smooth upper frequency response and increased efficiency, which delivers crystal clear music reproduction.

Delivering an increase in real power and efficiency, the large diameter voice coil provides a signature sound exclusive to the Signature Series 3 speakers.

Rated IP65 for water and dust ingress protection, while also meeting industry standards for UV and salt fog protection. Enjoy confidence that your Signature Series 3 speakers will last season after season in the harsh marine and outdoor environment.

330 watts peak power

4 Ohm impedance

All crossover components are fully sealed, providing full protection from the harsh marine environment. This delivers an improved frequency response at the crossover point for a detailed audio spectrum and a new level of acoustic performance.

The basket is constructed using high-grade engineered plastics to deliver unprecedented durability when exposed to the marine environment.

The Signature Series 3 speakers have passed stringent strength and watertightness tests. This is critically important as it ensures boat builders and consumers alike are installing a genuinely safe speaker system. By achieving ISO12216, the Signature Series speakers earn recognition for their superior design and build quality.

NEW SIGNATURE SERIES 3 SUBWOOFERS

SIGNATURE SERIES 3 SUBWOOFERS

SG-SL122SPW | SKU 010-02436-10
SG-SL122SPC | SKU 010-02436-11

Matching new 12" 1600 watts and enhanced 10" 600 watts peak powered Signature Series 3 marine subwoofers with CRGBW LED lighting are also available to add another dimension to your onboard audio entertainment experience.

PRODUCT COMPATIBILITY

STEREOS

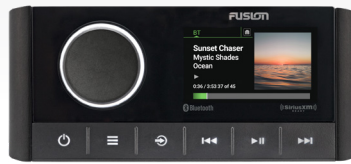

APOLLO RA770

MS-RA770 | SKU 010-01905-00

Through creative design and technological brilliance, a purpose-built marine audio entertainment system featuring many world-firsts has been created, including many innovations you are used to at home. Tap and swipe your way intuitively through your playlists with the glass touchscreen display, even with wet fingers, and enjoy high-quality music all day long with Wi-Fi¹ streaming using Apple AirPlay[®] 2 or UPnP.

¹ Wi-Fi is a registered trademark of the Wi-Fi alliance.

APOLLO RA670

MS-RA670 | SKU 010-02138-00

Award-winning innovation re-embodied, the new Apollo RA670 features Fusion's DSP technology, PartyBus™* capability, over-the-air software updates*, Wi-Fi audio streaming* with Apple AirPlay[®] 2*, Multi-Zone™ technology in up to 3 Zones, optical audio input, Fusion-Link™ integration, and an optically bonded 2.7" color display - the RA670 is truly a powerful extension of the Apollo Series.

* When connected to a wireless network router or integrated into a Wi-Fi enabled Apollo Series stereo network.

APOLLO SRX400

MS-SRX400 | SKU 010-01983-00

For convenience without compromising on quality. The premium design, engineering and powerful feature set of the Apollo Series are combined in a compact, versatile form factor in the SRX400. Featuring DSP technology, PartyBus™ capabilities, over-the-air software updates, built-in Wi-Fi¹, Apple AirPlay[®] 2 and an optically bonded 2.7" color display.
