## WATERPROOF PROFESSIONAL-GRADE HEADLAMP

The brightest headlamp in our professional series, the Apex, has been a favorite of extreme outdoorsmen and cavers for years. This powerhouse stand-by is receiving an upgrade this year via a new user interface and added light output and battery consumption control through dimmability in all modes. The pinnacle of waterproof LED headlamp design, the Apex incorporates a single Regulated Maxbright LED plus four Regulated Ultrabright LEDs. The Apex is capable of a powerful spot beam or a bright flood, has two switches that make changing modes intuitive and proprietary heatsink technology allows the LEDs to burn brighter and longer.
