Ultra Bright
Strobe
for Overboard
Distress

Lunasea Lighting's New Water Safety Device Provides Higher Level of Safety for Children and Pets

Lunasea Lighting has introduced an innovative new water safety device designed for child and pet safety. This complete safety system incorporates improved packaging other devices simply don't offer, allowing for increased convenience and, most importantly, greater peace of mind. In addition to being the smallest multi-function distress light and signaling device on the market today, unlike competitive offerings, Lunasea's waterproof device is easily rechargeable. It's also designed to work independently, or in combination with a waterproof, rechargeable pocket-size alarm receiver that increases your ability to keep track of your loved ones at all times.

Ideal for use aboard boats, at the marina, when camping by the lake or stream, or even poolside, Lunasea's IP67 waterproof attachment and IP65 waterproof receiver take on or near the water safety to a whole new level. The attachment emits a comforting blue ambient light to provide assurance that all is OK. In the event your child or pet should fall into in the water, an ultra-bright white distress strobe on the attachment automatically activates and the portable receiver sounds a loud audible alarm and flashes a bright strobe.

Both the child or pet worn strobe and the portable receiver are equipped with long-lasting lithium batteries and work with standard wireless charging pads. The strobe's distress light operates for a minimum of eight hours on a single charge, while the receiver functions for many days on a single charge.

LL63/70 BENEFITS

TRANSMITTER

Water Activated Strobe

Visual Tracker

RF Transmitter

Rechargeable Lithium Transmitter

Wireless Charging

(uses standard charging pad)

Smallest in Industry

Locking children wrist strap

Velcro Straps for Pets

Multi Graphics

Brightest Strobe in the Industry

Auto Switching from Off or Tracker to

Rescue Strobe

Auto and Manual Strobe

Low battery status transmits to receiver

Pairs with Receiver (allows close range to neighbors who have device)

RECEIVER

Rechargeable Portable Receiver

Loud Audible alarm

Visual Strobe alarm

Compact Size (fits in pocket)

Wireless Charging

(uses standard charging pad)

IP65 Waterproof

Low battery indicator LED

STANDALONE SAFETY DEVICE
