

SQUALL® II LEVEL WIND

- Fast Gear Access Side Plate
- 3+1 shielded stainless steel ball bearings
- HT-100™ Carbon Fiber Drag Washers
- Lightweight graphite frame and sideplates
- Forged and Machined Aluminum Spool
- High-strength marine grade bronze alloy main gear
- Stainless steel pinion gear
- Line Capacity Rings

Our NEW Fast Gear Access side plate makes servicing your Squall II SD easier than ever. With the removal of 4 screws, the gear side plate is easily removed giving access to the gear box for any needed maintenance without the worry of losing springs or other parts.

LINE COUNTER MODEL
