## XS SERIES WAKE TOWER SPEAKERS

### PRODUCT OVERVIEW

#### EXPERIENCE SOUND AND COLOR

The new **XS Series 6.5" Wake Tower Speakers** are designed to deliver high-performance acoustics and multicolor RGB LED lighting to your wake boat – enhancing your on-water experiences with quality audio and vibrant lighting.

These XS Series 6.5" Wake Tower Speakers produce a 200-watt peak power and incorporate quality materials and acoustic engineering for superior on-water performance. Available in Sports White or Sports Black designs, they suit a wide range of wake, tow, and center console boats.

#### OPTIMIZED FULL RANGE WAKE TOWER SPEAKER

The acoustic properties of the XS Series 6.5" Wake Tower Speakers have been optimized for wake boat applications. Combining speaker driver with tweeter in a precisely calculated enclosure, the wake tower speakers are designed to reproduce high quality audio at all volume levels.

Preconfigured DSP speaker profiles can be selected for the XS Series 6.5" Wake Tower Speakers from the Fusion-Link™ app, delivering an optimized listening experience with compatible Fusion® DSP-enabled stereos.

#### IP67 WEATHERPROOF

The XS Series 6.5" Wake Tower Speakers are rated IP67 for water and dust ingress protection, while also meeting industry standards for UV and salt fog protection. This makes them perfect for the harsh outdoor marine environment.

#### MULTICOLOR RGB LED LIGHTING

The XS Series 6.5" Wake Tower Speakers provide bright and even LED illumination in a wide range of colors, letting you choose a color to match the mood, set the tone or complement your music to enhance your audio entertainment experience.

Control of the color (static or dynamic), brightness, light mode and speed is made easy with the optional MS-RGBRC wireless remote control (sold separately). The intuitive color select wheel allows you to select whatever color you desire to help set the mood.

#### NEW MOUNTING BRACKET OPTIONS

The XS Series 6.5" Wake Tower Speakers have multiple new mounting bracket options to allow you to mount the wake tower speakers on board with versatility and ease. The new **Flat Mount Bracket** allows you to fit the wake tower speakers to composite tower beams or center console T-top roofs, while the new **Pipe Mount Brackets** are adjustable to fit tower pipes of various sizes.

#### TRUE-MARINE™ PHILOSOPHY

True-Marine design philosophy from Fusion stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their boat will deliver quality entertainment season after season. The XS Series 6.5" Wake Tower Speakers come with a 3-year warranty.

## KEY FEATURES

The new **XS Series 6.5" Wake Tower Speakers**, with their innovative technology and design, offer a high-performance audio entertainment experience, featuring:

### KEY FEATURE

Enjoy bright and even RGB LED illumination in a wide range of colors to match the mood, set the tone or complement your music for an enhanced audio entertainment experience.

### KEY FEATURE

Designed and engineered with a precisely calculated enclosure for high quality audio reproduction at any volume level, the XS Series 6.5" Wake Tower Speakers are specifically optimized for wake boat applications.

New Flat Mount and Pipe Mount mounting bracket accessory options (sold separately) are available to mount the XS Series 6.5" Wake Tower Speakers on board with versatility and ease. There are two variants of the Pipe Mount brackets, one to fit pipe sizes from Ø 1.31" to 2" [Ø 33.4 mm to 50.8 mm], the other to fit pipe sizes from Ø 2" to 2.5" [Ø 50.8 mm to 63.5 mm].

Translucent, water-resistant IMPP cone allows for consistent multicolor illumination. It also improves the robustness of the wake tower speakers, allowing for clean, clear audio reproduction.

### KEY FEATURE

True-Marine™ design philosophy from Fusion® stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their boat will deliver quality entertainment season after season.

The aluminum dome tweeter provides a smooth upper frequency response and increased efficiency, which delivers crystal-clear music reproduction.

Rated IP67 for water and dust ingress protection, these speakers also meet industry standards for UV and salt fog protection. Enjoy confidence that your XS Series 6.5" Wake Tower Speakers will last season after season in the harsh marine and outdoor environment.

200-watt peak power

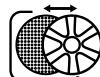

4-ohm impedance

All crossover components are fully sealed, providing increased protection from the harsh marine environment. This delivers an improved frequency response at the crossover point for a detailed audio spectrum and a new level of acoustic performance.

The compact design allow for more versatile installation options on board your wake boat.

The XS Series 6.5" Wake Tower Speakers have easily interchangeable accessory grilles (sold separately) allowing you to customize the style to suit your taste.

## PRODUCT COMPATIBILITY

### STEREOS

#### APOLLO™ RA770

MS-RA770 | SKU 010-01905-00

The world's first touchscreen marine stereo with Apple AirPlay® 2 and built-in Wi-Fi®, the Apollo RA770 has redefined audio excellence with revolutionary technology and innovative design.

#### APOLLO RA670

MS-RA670 | SKU 010-02138-00

The Apollo RA670 marine stereo reembodies award-winning audio innovation and revolutionary technology from the Apollo RA770 in a more compact form factor.

#### APOLLO WB670

MS-WB670 | SKU 010-02346-00

The Apollo WB670 hideaway stereo inherits key audio innovations from the Apollo RA670, reengineered in a compact, space-saving form factor designed to simplify dash space.
