INSTALLATION INSTRUCTIONS

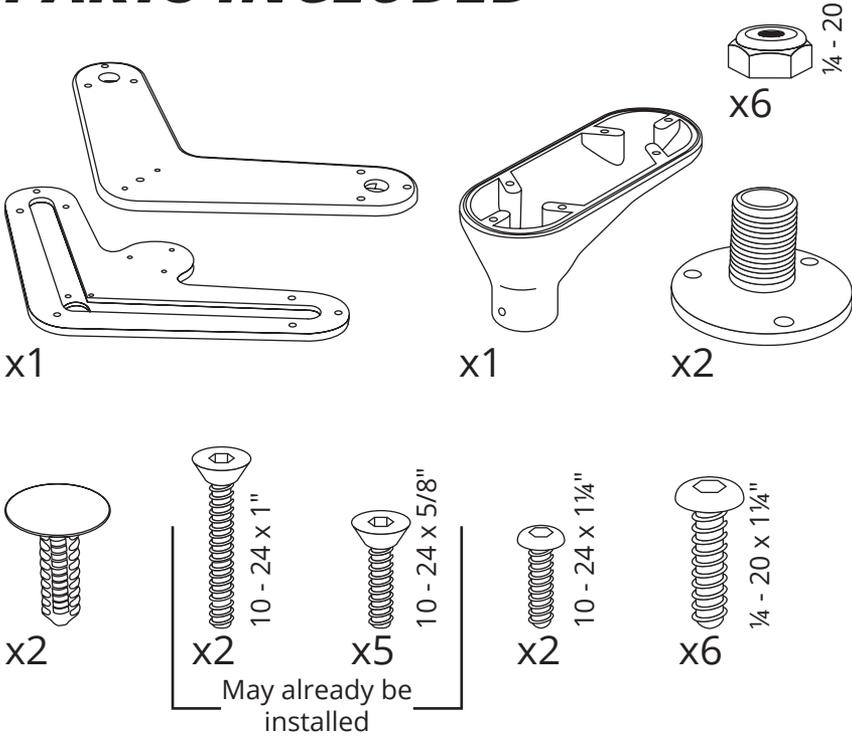

For Seaview Light Bar Top:

PMU2A

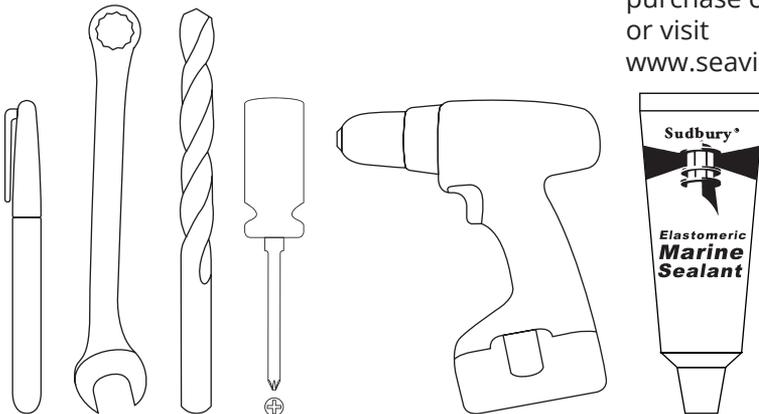

Refer to website for most up to date instructions and videos.

WWW.SEAVIEWGLOBAL.COM

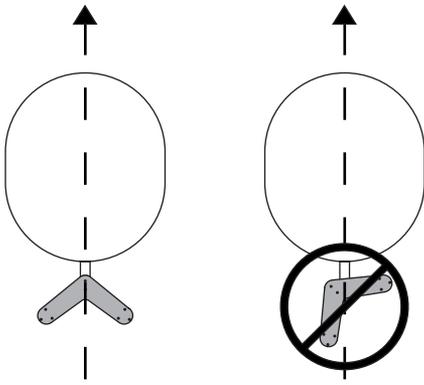

PARTS INCLUDED

TOOLS NEEDED

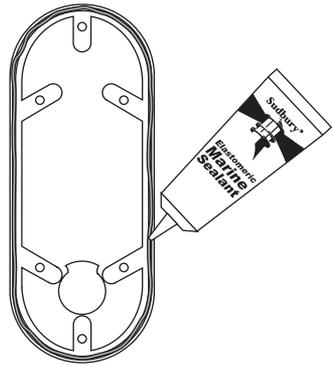

Sudbury Elastomeric Marine Sealant is recommended. To purchase call 800-655-7922 or visit www.seaviewglobal.com

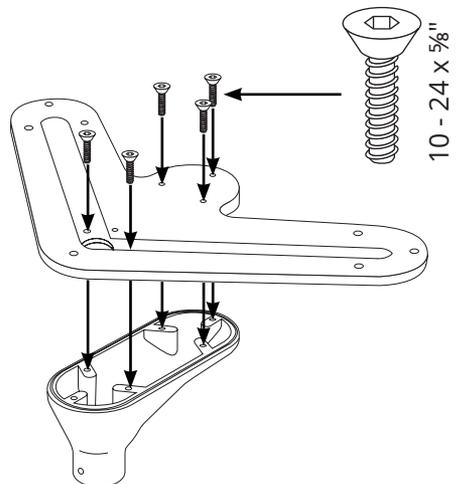

Make sure that the #PMA-U2A is facing forward.

-
- 1** Apply marine adhesive sealant to the groove of the base.

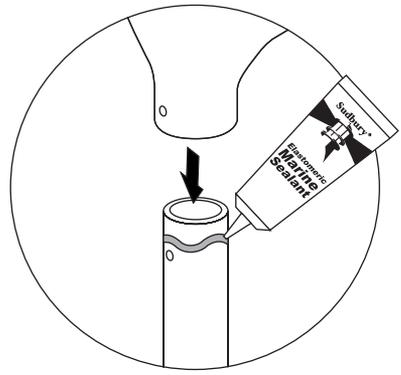

-
- 2** Screw the lower portion of the spreader to the base using the 5 screws (10-24 x 5/8") using an allen wrench.

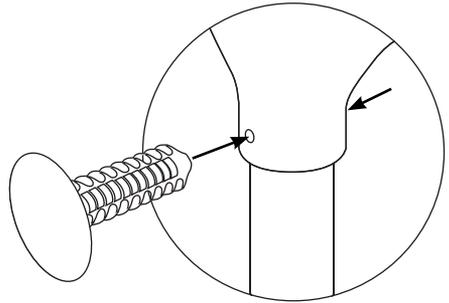

3

Apply marine adhesive sealant to the light bar above the rivet hole.

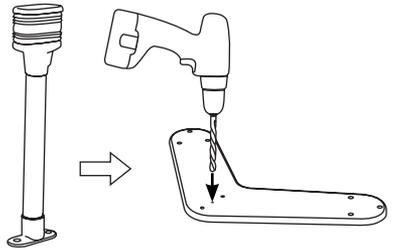

4

Insert the plastic rivets into the hole on the front and back of the base.

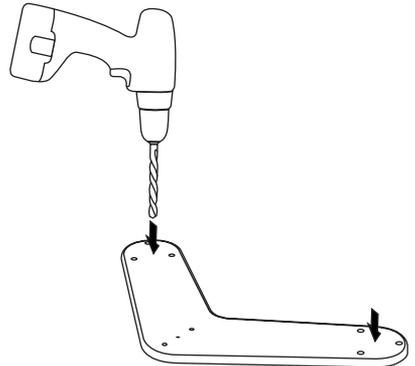

5

If you are using a light drill a hole into the top portion of the spreader for the wiring.

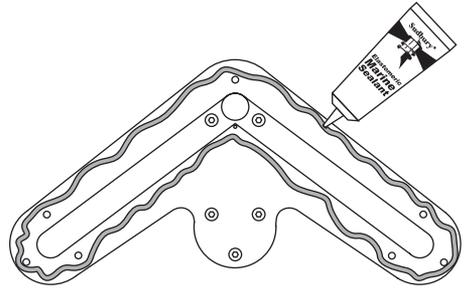

6

Drill holes on the ends of the spreader for any GPS wiring.

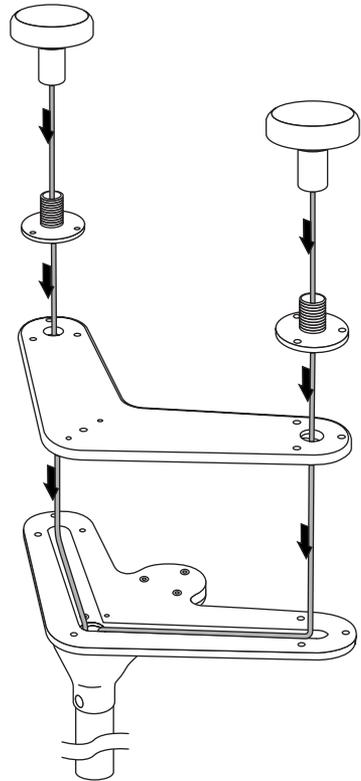

7

Apply marine adhesive sealant to the lower portion of the spreader.

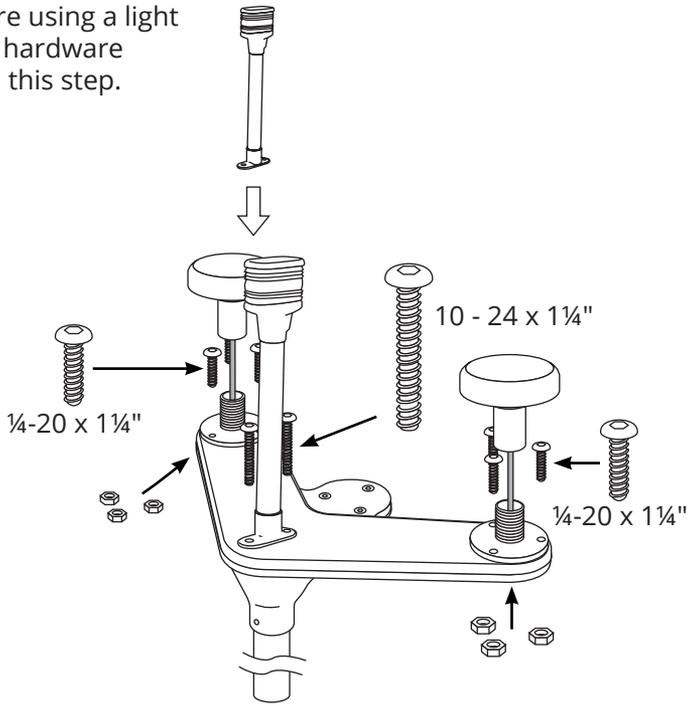

8

Route all wiring through the plastic threaded adapters and spreader.

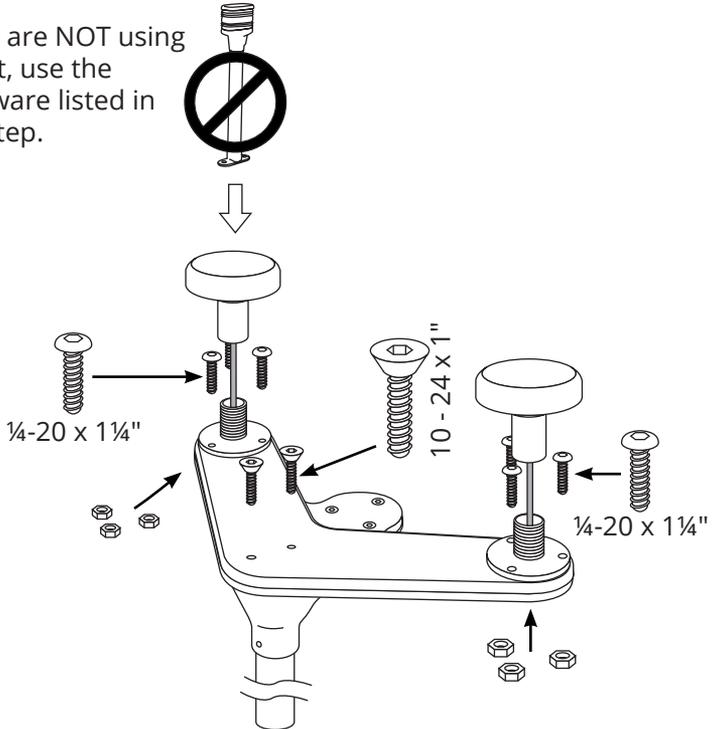

9A

If you are using a light use the hardware listed in this step.

9B

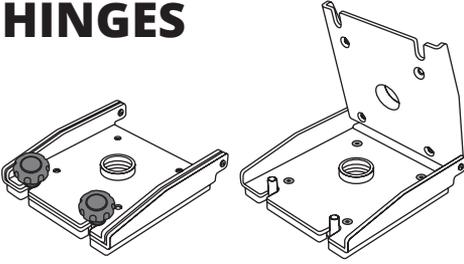

If you are NOT using a light, use the hardware listed in this step.

OPTIONAL ACCESSORIES

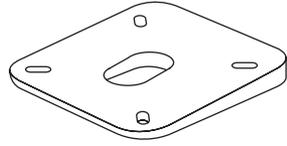

Call 800-655-7922 or visit www.seaviewglobal.com for available accessories.

HINGES

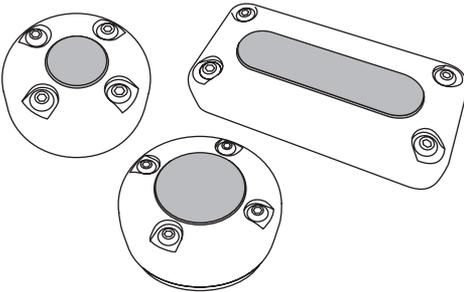

Seaview Hinge Adapters fold in any direction necessary for added height clearance.

WEDGES

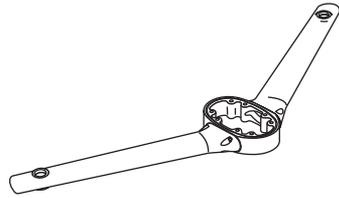

Compensates for plane angle. Available in 2, 4 or 6 degree wedges.

CABLE GLANDS

Seaview Cable Glands provide waterproof cable routing.

SPREADER KIT

SP1-MOD

Allows user to mount GPS units or antennas onto a Seaview Modular Mount.

The background of the entire page is a light gray topographic map with white contour lines. The lines are irregular and wavy, representing elevation changes across a landscape. The map is centered and fills the entire frame.
