

D-A FINE

HIGH PERFORMANCE FINE POLISHING COMPOUND

D-A FINE combines noticeable cutting performance with impressive finishing capability. Combined with RUPES specially designed yellow foam, wool, or microfiber pads, DA-FINE delivers a much higher level of defect removal when compared to traditional fine polishing compounds, yet still provides the incredibly high finish quality and easy wipe off expected from a product formulated for final finishing. RUPES D-A FINE is body shop safe and performs well on clear coat, single stage paint, gelcoat, and more.

FEATURES AND BENEFITS

- Excellent cutting performance relative to most "fine" polishing compounds
- New micro-abrasive technology and proprietary blend enhance finishing ability
- Easy wipe-off, for fewer towel marks on soft paints or delicate surfaces
- Easy application when used with RUPES color-coordinated pad system
- One-step light defect removal and finishing on most paints
- Can also be excellent 2nd step polish following D-A COARSE compound

TIPS FOR SUCCESS

- Properly decontaminate the surface prior to beginning any polishing procedure
- Clean pads frequently with compressed air or RUPES Claw Pad Tool to maintain consistent performance
- Do not over-saturate the pad with polish
- For best performance always use with RUPES polishing pads. Yellow wool or microfiber are recommended for heavier cutting, yellow foam for light defects and finishing
- If working on a severely defected surface use D-A COARSE first to address deeper imperfections
