WELCOME

No matter how far off the grid you go, Globalstar's Sat-Fi2 satellite Wi-Fi hotspot keeps you connected to what matters. Sat-Fi2 fills the gap when your cellular or radio coverage is gone, keeping voice and data communication channels open when you need it the most. With Sat-Fi2, you can use your personal Wi-Fi enabled devices and stay connected over the newest and most modern mobile satellite network with data speeds up to 72 kbps! Up to 8 different users can connect to a single Sat-Fi2 for web browsing, email, 2-way texting, voice calls, data, weather updates and much more. Sat-Fi2 is lightweight, water & impact resistant and fits right in the palm of your hand. Sat-Fi2 is the last device you'll ever need to stay in touch with family, friends, business contacts and emergency services.

NOTE: Before using the Sat-Fi2, Globalstar recommends spending a few minutes reading through this User Guide prior activation ensuring a successful Sat-Fi2 configuration. Complete each step before moving on to the next step.

What's in the Box?

- Sat-Fi2 Unit
- 18" Micro USB Data/Power Cable
- AC (Wall) Power Adapter
- GEOS Reference Guide
- Quick Start Guide
- Warranty Card

Activating the Sat-Fi2

In order to begin using the Sat-Fi2, please ensure you have an active subscription. Please check to see if you have received a Globalstar Activation Submission email from message-noreply@globalstar.com. This email will have the Account Number (i.e. AC00123456), needed for registering a My Account Profile. If you do not have an active subscription or encounter any issues with your device please visit Globalstar.com/Sat-Fi2Support for assistance.

Owner and Guest Accounts

There are two types of user accounts associated with the Sat-Fi2:

- Owner Account – Actual owner or designated administrator of the Sat-Fi device
 - Voice calls - Make voice calls
 - Text messaging – Send and receive text messages
 - Email – Access personal email account
 - Social Media – Send posts to individual Facebook or Twitter accounts
 - Weather – View local weather conditions
 - Administrative privileges
 - Change Sat-Fi Wi-Fi password
 - Delete messages from Queue
 - My Account access
- Guest User Account – Uses Owner's voice minutes, text messages allotment and data to perform the following:
 - Voice calls - Make voice calls using the Owner's Sat-Fi Mobile Device Number
 - Text messaging – Send and receive texts using the Owner's Sat-Fi 2 Mobile Device Number
 - Email – Access personal email account
 - Social Media – Send posts to individual Facebook or Twitter accounts
 - Weather – View local weather conditions

REGISTERING A MY ACCOUNT PROFILE

User Registration

In order to access the Sat-Fi2, users will have to first register their account. Perform the following steps for new user registration.

1. In a web browser enter <https://mysatfi.globalstar.com/>
2. Select Register
3. Enter e-mail address used when activating the device and Globalstar Account Number located on the activation email confirmation
4. Select Confirm
5. Select Language Preference
6. Create username, password and secret question information
7. Select Register
8. My Account registration is complete.

GETTING STARTED

The following instructions are for iOS and Android users only. If you are not an iOS or Android user, please visit Globalstar.com/Sat-Fi2Support for setup instructions.

Sat-Fi2 Default Username & Passwords

- Sat-Fi2 Wi-Fi
 - Username: No username by default
 - Password: **satfi1234**
- Sat-Fi2 Admin
 - Username: **admin**
 - Password: **admin**

Step 1 Charge the Sat-Fi2

The Sat-Fi2 must have a sufficient charge before it can be configured for use. Perform the following steps to charge the Sat-Fi2 battery:

1. Remove the USB Data/Power Port cover by turning the D-Ring screws counter-clockwise. Place the USB Data/Port cover in a secure location.
2. Connect the Micro USB Data/Power Cable to the Sat-Fi2 USB Data/Power port and plug into either a computer or the AC Power Adapter (included in the box.) The Sat-Fi2 will perform a self-test (the LEDs will blink in a right-to-left then left-to-right sequence) If the Power LED is blinking **RED**, the battery requires further charging.
3. Let the Sat-Fi2 charge until the Power LED turns Solid **GREEN**.
4. Disconnect the Micro USB Data/Power Cable and re-connect the USB Data/Power cover on the Sat-Fi2 by turning the D-Ring screws clockwise.

NOTE: The USB/Data Power Port needs to be properly installed to ensure water resistant integrity.

Step 2 Install the Sat-Fi2 App on a Smartphone

1. Using an Internet or cellular connection, download and install the Sat-Fi2 App from the Google Play Store or the Apple Store.

Step 3 Power on the Sat-Fi2 and Open the Sat-Fi2 App

1. Power on the Sat-Fi2.
2. Ensure the smartphone has a cellular or Wi-Fi Internet connection.
3. Open the Sat-Fi2 app by selecting  .

Sat-Fi

NOTE: The Sat-Fi2 App will download a few files necessary for setup/configuration. Do not close the Sat-Fi2 App during the process

Step 4 Configuring the Sat-Fi2 App as an Owner

Perform the following to configure the Sat-Fi2 App as an Owner:

1. Select the Sat-Fi2 icon
2. Select **Allow** for the following steps:
Taking photos, alternate GPS locations, sending and attaching photos, access contacts, talk when making a voice call, and make a phone call.
3. Select **I'M THE OWNER**
4. Enter My Account username and password
5. Configure Social Accounts
6. Turn on Sat-Fi2
7. Turn on the smartphone's Wi-Fi and select the Sat-Fi2 Wi-Fi – Default name is: satfi2_ <xxxxxx>
8. Enter the default Sat-Fi2 password: satfi1234
9. Go back to the Sat-Fi2 app
10. Select **CONNECT**
11. Enter the default admin password: admin
12. Select **VALIDATE**

For Android: A background battery usage message will be displayed, select OK. Then select NO when prompted to ignore battery optimizations

13. Creating an Owner Account is complete

Configuring the Sat-Fi2 App as a Guest

Guest accounts give Sat-Fi2 owners the ability to allow guests to sign on and use the Sat-Fi2. Perform the following steps to create a Sat-Fi2 Guest Account

- Follow steps from 1-2 on the Set up as Owner guide
1. Select **WI-FI SETTINGS**
 2. Turn on the smartphone's Wi-Fi
 3. Select the Sat-Fi2 Wi-Fi – The default Wi-Fi name is satfi2_ <xxxx>
 4. Enter the default Sat-Fi2 password: satfi1234
 5. Select **CONNECT/JOIN**
 6. Select **I'M A GUEST**
 7. Create a Guest account by completing the form and selecting **SUBMIT**
 8. Creating a Guest Account is complete

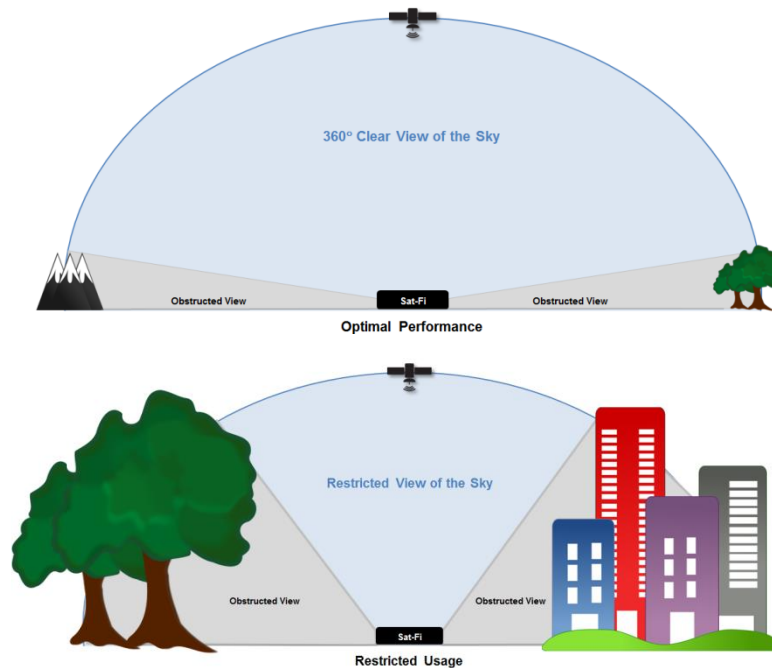

Step 6 Test Sat-Fi2 Configuration and Connection

Perform the following to make a satellite call, send a text message, receive a call or browse and confirm the Sat-Fi2 is configured and operational:

1. Verify the following:
 - The Sat-Fi2 is outside with 360 clear view of the sky with no obstructions (buildings, trees, etc.)
 - The Sat-Fi2 is facing up – logo/power button facing up
 - The Sat-Fi2 co-located antenna is fully extended in the upright position and powered on
2. Verify the  and the  are displayed on the Sat-Fi2 app indicating the Sat-Fi2 has a good satellite connection.
3. Select the Phone icon
4. On the telephone key pad either:
 - Enter a telephone number
 - Select a contact 
5. Select the phone icon to place the call
6. Within a few seconds you will hear a dial tone and be connected
7. Select  to disconnect/hang-up
8. The Sat-Fi2 is now configured and operational

Best Practice Uses

- The Sat-Fi2 **WILL NOT** work indoors and needs to be outside (Indoor use will require a Remote Antenna and Mobile Docking Station – Sold Separately)
- The Sat-Fi2 co-located antenna needs to be fully extended in the upright position
- Power On the Sat-Fi2 prior to use – The Sat-Fi2 can take up to 5 minutes to boot up and acquire a GPS fix
- For optimal performance:
 - The Sat-Fi2 needs a clear 360° view of the sky with no obstructions (buildings, trees, etc.)
 - The Sat-Fi2 should be placed on a flat surface with the Power Button and Sat-Fi2 Logo facing up towards the sky

- Ensure all users download and install the Sat-Fi2 App prior to leaving Internet/Cellular service
- Before making a voice call or sending a text message, ensure  and  are displayed on the Status Bar of the Sat-Fi2 App, indicating that the Sat-Fi2 has a good satellite connection

SAT-FI2 OVERVIEW

Sat-Fi2 at a Glance

- **Co-Located Antenna** – Must be fully extended and pointing straight to the sky for optimal performance
- **Power LED** – Displays Power status
- **Satellite LED** – Displays Satellite connectivity status
- **S.O.S. LED** – Displays S.O.S. status
- **USB Power/Data Port**
 - Remove cover to access USB Power/Data Port
 - Use port to charge the battery and connect the device to a computer
- **External Power Port** – Use with 12V charger (sold separately)
- **Power Button**
 - **Power On** – Press and hold for 1 second
 - **Power Off** – Press and hold for 3 seconds
- **S.O.S. Button**
 - **Initiate S.O.S. with GEOS** – Press and hold S.O.S. button until S.O.S. LED blinks **GREEN**
 - **Cancel S.O.S. with GEOS** – Press and hold the S.O.S. button until S.O.S. LED blinks **RED**

Sat-Fi2 LEDs

Powering On/Powering Off the Sat-Fi2

LED Status	Power LED	Satellite LED	SOS LED
Powering On/Self-Test	LEDs Blink in Forward/Reverse Direction until Sat-Fi2 Powers On		
Powering Off	Fast Blink ORANGE	Fast Blink ORANGE	Fast Blink ORANGE

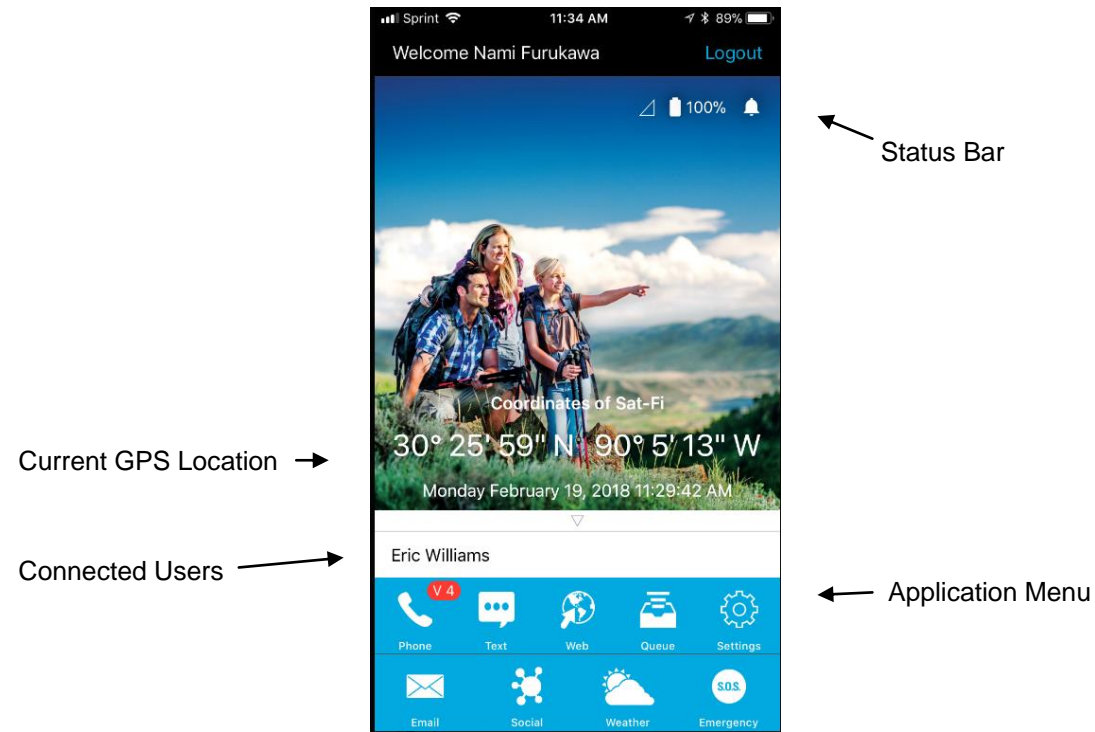

Operational/Status

LED Status	Power LED	Satellite LED	SOS LED
Powered On	Normal Blink GREEN	-	-
Powered Off	No LED	No LED	No LED
Battery Full – 100%	Solid GREEN	-	-
Battery Charging	Double Blink GREEN	-	-
Battery <25%	Fast Blink RED	-	-
Connected to Satellite	-	Normal Blink GREEN	-
Not Connected to Satellite	-	Normal Blink RED	-

Sat-Fi2 App Home Screen

Application Menu

- **Phone** – Make and receive phone calls to friends, family and contacts
- **Text** – Send and receive SMS/Text messages to friends, family and contacts
- **Web** – Browse the Internet using Sat-Browse
- **Email** – Send and receive emails from personal or corporate email accounts
- **Social** – Share photos and post updates to linked social media accounts
- **Weather** – View local weather conditions anywhere in the world
- **Emergency** – Initiate an S.O.S. with direct 2-way voice and text communications with GEOS Emergency Response Coordination Center
- **Queue** – View a list of messages in the queue that are waiting to be sent

Logging Into the Sat-Fi2 App

NOTE: The configuration of the Sat-Fi2 App as an Owner or the creation of a Guest User Account is mandatory before being able to log into the Sat-Fi2 App.

Perform the following steps to log into the Sat-Fi2 App:

For Android:

1. Open the Sat-Fi2 App
2. Select WI-FI SETTINGS
3. Select the Sat-Fi2 Wi-Fi – The default Wi-Fi name is: satfi2_<xxxxx>
4. Go back to the Sat-Fi2 App
5. Select RECONNECT
6. Enter username
7. Enter Password
8. Select Sign in
9. Login is complete

NOTE: If the phone has its Wi-Fi on, but isn't connected to anything, it will go to the Sat-Fi2 app login page. The user must enter username and password then hit Sign in. The reconnect page will appear. This is where you select WI-FI SETTINGS, choose the Sat-Fi2's Wi-Fi, and then the app will automatically connect and go to the main app screen.

For iPhone:

1. Open the Sat-Fi2 App
2. Select WI-FI SETTINGS
3. Select the Sat-Fi2 Wi-Fi – The default Wi-Fi name is: satfi2_<xxxxx>
4. Go back to the Sat-Fi2 App
5. Re-enter your login credentials if you did not select auto login when setting up the app
6. Select RECONNECT
7. Login is complete

NOTE: If credentials have already been entered before, the phone will auto-login and go straight to the reconnect screen. Here the user needs to select WI-FI SETTINGS, choose the Sat-Fi2's Wi-Fi, and then the app will automatically connect and go to the main app screen.

Logging Out of the Sat-Fi2 App

NOTE: If logged out of the Sat-Fi2 App, the smartphone will not receive any Sat-Fi2 voice calls, emails and texts until logged back into the Sat-Fi2 App.

Perform the following steps to log out of the Sat-Fi2 App:

1. From the main menu screen:
 - Select the Menu icon (For Android)
 - Select the Logout icon (For iPhone)
2. Select Logout (For Android) / Confirm (For iPhone)
3. The Login screen will be displayed and logging out is complete

Closing the Sat-Fi2 App

NOTE: To receive voice calls and texts, the Sat-Fi2 App needs to remain running in the background. If the Sat-Fi2 App is closed, the smartphone will not receive any Sat-Fi2 voice calls, emails and texts until logged back into the Sat-Fi2 App.

Globalstar recommends closing the Sat-Fi2 App only if powering off the Sat-Fi2 device.

Perform the following steps to close the Sat-Fi2 App:

For Android:

1. Select the Menu icon
2. Select close app
3. Confirm you want to close the app by selecting Yes
4. The Sat-Fi2 app will close and the smartphone will be brought to its home screen.
5. Press the multitasking button (usually a square next to the home button)
6. Swipe left or right or tap the X to close the app.

For iPhone:

1. Double press the circular button on the bottom of your iPhone
2. The screen will shrink
3. Slide up.

VOICE COMMUNICATIONS

Overview

-  Dials the smartphone's contact list
-  Displays the smartphone's contact list
-  Displays the number of voicemails and dials voicemails (Android only)
-  Dials voicemail while pressing and holding down (Android and iPhone)
-  Displays the dialing pad
-  Displays the call history

-  Places the caller on hold
-  Displays the dial pad
-  Toggles the speaker phone on/off
-  **Transfers the call to another phone**

Making a Voice Call

Perform the following steps to make a voice call on the Sat-Fi2.

1. Open the Sat-Fi2 app and log in as Owner or Guest
2. Select the 
3. Verify  and  are displayed indicating the Sat-Fi2 has a good satellite connection
4. Enter a phone number on the telephone key pad or select a contact
5. Press the green phone icon to dial. Within a few seconds you will hear a dial tone and be connected

Receiving a Voice Call

Perform the following to receive a voice call on the Sat-Fi2:

1. An incoming call will be displayed on the screen.
2. Answer the phone by selecting the green phone icon on Android or the accept icon on iPhone

Voicemail

With voicemail you can check your messages from your Sat-Fi2 connected smartphone at standard airtime rates. There is no connection fee from Globalstar to receive a message or check your messages from a landline/mobile phone (local carrier fees may apply).

- Store up to 25 messages
- Callers can record a message up to 3 minutes in length
- Once a message has been played it will only be stored for 30 days

Voicemail using a Sat-Fi2 Connected Smartphone

Voicemail Setup & Configuration using the Sat-Fi2

Perform the following steps to setup and configure voicemail using a Sat-Fi2 connection:

1. On the main screen, select the phone icon .
2. The telephone keypad on the Android will display the voicemail icon, press and hold. For the iPhone press and hold the 1.
3. At the voice prompt, enter the Sat-Fi2 telephone number.
Example: 1-254-555-1234 (<Country Code>+<Telephone Number>)
4. At the voice prompt, select your desired language.
5. At the voice prompt, setup/configure the following voicemail settings:
 - Voicemail Greeting
 - Voicemail Pass Code
6. At the voice prompt, select **4** to manage the following greetings:
 - Name
 - Unavailable
 - Temporary
7. When finished, select  to disconnect/hang-up. Setup and configuration of voicemail is complete.

NOTE: Hibernation mode does not affect voicemail. Hibernation shuts down a lot of processes to save battery and just prevents the user from receiving calls and push notifications.

Accessing Voicemail using the Sat-Fi2

Perform the following steps to setup and configure voicemail using a Sat-Fi2 connection:

1. On the main screen, select phone icon .
2. The telephone keypad on the Android version will display the voicemail icon which can be selected to access voicemail. On the iPhone, voicemail can be accessed by pressing and holding the 1. .
3. At the voice prompt, select your desired language.
4. At the voice prompt, enter the Sat-Fi2 telephone number.
Example: 1-254-555-1234 (<Country Code>+<Telephone Number>)
5. At the voice prompt, enter your Pass Code. Then follow the audible instructions.

Voicemail using a Landline/Mobile Phone

Voicemail Setup & Configuration using a Landline/Mobile Phone

Perform the following steps to setup and configure voicemail using a landline/mobile phone:

1. On a landline/mobile phone, dial:
 - North America 1-877-426-0308
 - Caribbean & Latin America Call the Sat-Fi2's number
 - Europe +353-828-80420
 - Africa +353-1-290-9505
2. At the voice prompt, select your desired language.
3. At the voice prompt, enter the Sat-Fi2 telephone number.
Example: 1-254-555-1234 (<Country Code>+<Telephone Number>)
4. At the voice prompt, select your desired language.
5. At the voice prompt, setup/configure the following voicemail settings:
 - Voicemail Greeting
 - Voicemail Pass Code
6. At the voice prompt, select **4** to manage the following greetings:
 - Name
 - Unavailable
 - Temporary
7. When finished, hang up and voicemail will be setup and configured.

Accessing Voicemail using a Landline/Mobile Phone

Perform the following steps to access voicemail using a landline/mobile phone”

1. On a landline/mobile phone, dial:
 - North America 1-877-426-0308
 - Caribbean & Latin America Call the Sat-Fi2’s number
 - Europe +353-828-80420
 - Africa +353-1-290-9505
2. At the voice prompt, select your desired language.
3. At the voice prompt, enter your Sat-Fi2 telephone number/MDN followed by #
Example: 254-555-5555#.
4. A voice prompt, enter your pass code.
5. At the voice prompt, select **1** to listen to voicemail messages.

SMS/TEXT MESSAGING

Sending an SMS/Text Message

Perform the following steps to send an SMS/Text message using the Sat-Fi2:

1. From the main menu, select Text
2. On Android phones, select the + sign to create a new message
On iPhone, select the compose icon to create a new message
3. Select contacts or enter a text number on the Android
Select the plus sign to add a contact
4. Enter text message and send
5. The text message will be sent and displayed as a message thread

Receiving and Reply to an SMS/Text Message

Perform the following steps to receive and reply to an SMS/Text message using the Sat-Fi2:

1. When an incoming text message arrives, the following will be displayed:
 - An incoming text message pop up
 - The number of unread text messages received
2. To view the text messages, select text
3. Select the text thread to view
4. To reply, type the text message and select send when finished

Sending SMS/Text Messages to Multiple Contacts

NOTE: Sending SMS/text messages to multiple contacts is not group texting. When sending SMS/Text to multiple contacts the Sat-Fi2 App will create individual message threads for each individual contact and send multiple messages. You will be charged for each SMS/Text message that is sent.

Perform the following steps to receive and reply to an SMS/Text message using the Sat-Fi2:

1. From the main menu, select Text
2. On Android phones, select the + sign to create a new message
On iPhone, select the compose icon to create a new message
3. On Android select SEND TO MULTIPLE CONTACTS
On iPhone, select the contact by pressing the plus sign. Once a contact is selected, press the plus sign and repeat again to add more.
4. After selecting the contacts, type the text message, then send.

*On the Android, it will show a disclaimer asking you if you are sure you want to send the message to multiple contacts. Select OK to proceed.
5. The message will be sent and the Sat-Fi2 App will create two separate message threads for each contact.

Deleting Message Threads

Perform the following steps to delete a message thread:

1. On the Android, select and press down on the message thread to be deleted
On the iPhone, select and slide to the left and the word delete will appear
2. On Android, you will be asked if you want to delete the conversation
On iPhone, you will select "delete"
3. The selected message thread will be deleted
1. The selected message will be deleted

Deleting Individual Messages

Perform the following steps to delete an individual message within a message thread:

Android:

1. Select and press down on the individual message to be deleted
2. Select Yes when asked if you want to delete the message
3. The selected message will be deleted

iOS:

1. Select and slide to the left and the word delete will appear
2. Select delete

EMAIL

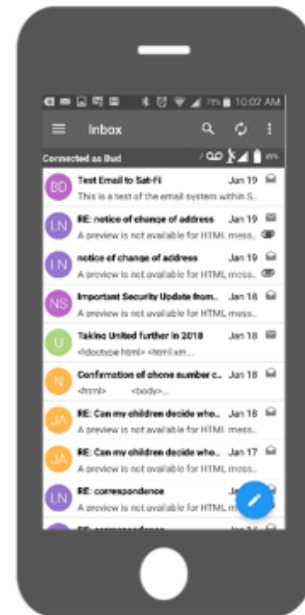

Overview

Sat-Fi2 allows for the use of most personal and corporate email accounts including:

- Gmail
- Yahoo
- Exchange
- iCloud
- Outlook
- Hotmail
- AOL
- Other IMAP and IMAPS Accounts

Inbox Screen

-  Displays email folder menu (i.e. Inbox, Drafts, Trash)
-  Opens the email search field
-  Performs an automatic email fetch
-  Displays the email settings menu
-  Displays the Compose new email screen

Compose Message Screen

-  Send the email
-  Include an attachment
-  Attach a picture
-  Displays the email settings menu
-  Displays the contact list
-  Displays the contact list on iPhone

View Email Screen

-  Deletes the email
-  Displays the email settings menu
-  Displays the email settings menu
-  Displays the email settings menu
-  Displays the contact list

Configuring Email Accounts

Email Accounts – Gmail, Yahoo, iCloud, Outlook, Hotmail & AOL

Perform the following to configure personal email using the Sat-Fi2 App:

For Android:

1. Select Email icon
2. Select the Menu icon
3. Select Account Settings
4. Select the plus icon
5. Enter the Account Name to be displayed within the Sat-Fi2 App
6. Select the Email type to be used with Sat-Fi2
7. Enter the Email address to be used with Sat-Fi2
8. Enter the Username associated with the Email address
9. Enter the Password associated with the Email address
10. Email defaults to Text Email Format- To display Email in HTML format and/or display HTML Images, place a checkmark in the appropriate checkboxes
(NOTES: Displaying Email and/or images in HTML will use more data)
11. Select  and choose the number of Email messages to be fetched and displayed
12. Select  and choose the Email Fetch Start Date
(NOTE: Selecting this option will bring up a calendar so the user can select from what day to start fetching emails.)
13. Select  to verify the account settings are correct – If not, repeat Step 5 through Step 12
14. Select  to save the Email account settings
15. The Email account will be configured and ready for use

For iPhone:

1. Select Email icon
2. Select the Plus icon at the bottom left corner
3. Enter the Account Description to be displayed within the Sat-Fi2 App
4. Enter the Email address to be used with Sat-Fi2
5. Enter the Username associated with the Email address
6. Enter the Password associated with the Email address
7. Select the Email type to be used with Sat-Fi2
8. Select the number of Email messages to be displayed
9. Select the number of Days to Sync
10. Turn on or turn off Auto Sync
11. Turn on or turn off Text Only
(NOTE: Displaying Email and/or images in HTML will use more data)
12. Turn on or turn off Load Images
13. Select the number of Retries on Error
14. Select Save
15. The Email account will be configured and ready for use

Email Accounts – Exchange

Perform the following to configure personal email using the Sat-Fi 2 App:

For Android:

1. Select Email icon
2. Select the Menu icon
3. Select Account Settings
4. Select the plus icon
5. Enter the Account Name to be displayed within the Sat-Fi2 App
6. Select the Email type to be used with Sat-Fi2
7. Enter the Email address to be used with Sat-Fi2
8. Enter the Username associated with the Email address
9. Enter the Password associated with the Email address
10. Enter the Exchange Active Directory Domain
11. Email defaults to Text Email Format- To display Email in HTML format and/or display HTML Images, place a checkmark in the appropriate checkboxes
(NOTES: Displaying Email and/or images in HTML will use more data)
12. Select  and choose the number of Email messages to be fetched and displayed
13. Select  and choose the Email Fetch Start Date
(NOTE: Selecting this option will bring up a calendar so the user can select from what day to start fetching emails.)
14. Select  to verify the account settings are correct – If not, repeat Step 6 through Step 12
15. Select  to save the Email account settings
16. The Email account will be configured and ready for use

For iPhone:

1. Select Email icon
2. Select the Plus icon at the bottom left corner
3. Enter the Account Description to be displayed within the Sat-Fi2 App
4. Enter the Email address to be used with Sat-Fi2
5. Enter the Username associated with the Email address
6. Enter the Password associated with the Email address
7. Select the Email type to be used with Sat-Fi2
8. Select the number of Email messages to be displayed
9. Select the number of Days to Sync
10. Turn on or turn off Auto Sync
11. Turn on or turn off Text Only
(NOTES: Displaying Email and/or images in HTML will use more data)
12. Turn on or turn off Load Images
13. Select the number of Retries on Error
14. Enter the Exchange Domain Information
15. Select Save
16. The Email account will be configured and ready for use

Email Accounts – IMAP & IMAPS

Perform the following to configure personal email using the Sat-Fi2 App:

For Android:

1. Select Email icon
2. Select the Menu icon
3. Select Account Settings
4. Select the plus icon
5. Enter the Account Name to be displayed within the Sat-Fi2 App
6. Select the Email type to be used with Sat-Fi2
7. Enter the Email address to be used with Sat-Fi2
8. Enter the Username associated with the Email address
9. Enter the Password associated with the Email address
10. Enter the IMAP Server information
11. Enter IMAP Server Port number
12. Enter SMTP Server Information
13. Enter SMTP Sever Port number
14. Email defaults to Text Email Format- To display Email in HTML format and/or display HTML Images, place a checkmark in the appropriate checkboxes
(NOTES: Displaying Email and/or images in HTML will use more data)
15. Select  and choose the number of Email messages to be fetched and displayed
16. Select  and choose the Email Fetch Start Date
(NOTES: Selecting this option will bring up a calendar so the user can select from what day to start fetching emails.)
17. Select  to verify the account settings are correct – If not, repeat Step 6 through Step 12
18. Select  to save the Email account settings
19. The Email account will be configured and ready for use

For iPhone:

1. Select Email icon
2. Select the Plus icon at the bottom left corner
3. Enter the Account Description to be displayed within the Sat-Fi2 App
4. Enter the Email address to be used with Sat-Fi2
5. Enter the Username associated with the Email address
6. Enter the Password associated with the Email address
7. Select the Email type to be used with Sat-Fi2
8. Select the number of Email messages to be displayed
9. Select the number of Days to Sync
10. Turn on or turn off Auto Sync
11. Turn on or turn off Text Only
(NOTES: Displaying Email and/or images in HTML will use more data)
12. Turn on or turn off Load Images
13. Select the number of Retries on Error
14. Enter the Email Server
15. Email Port
16. SMTP Server
17. SMTP Port
18. Select Save
19. The Email account will be configured and ready for use

Viewing Email

Perform the following steps to view an email:

For Android:

1. Select the email to be viewed
2. Select Download Email
3. The Sat-Fi2 will fetch the selected message
4. The selected message will be downloaded and ready to be viewed

NOTE: If there are attachments to the e-mail, they can be downloaded individually or all at once by selecting the paper clip icon. The attachments will not show how big the file is unless the email has been downloaded.

For iPhone:

1. Select the email to be viewed
2. Select Download Email
3. The Sat-Fi2 will fetch the selected message
4. The selected message will be downloaded and ready to be viewed

NOTE: If there are attachments to the e-mail, they can be downloaded individually or all at once by selecting the paper clip icon.

Composing and Sending Email

Perform the following steps to compose and send an email:

1. On Android, select 

On iPhone, select 
2. Enter an email address or select a contact
3. Enter a subject
4. Enter email message text
5. On Android, select  to send

On iPhone select Send
6. The email will be sent and a Email message sent message will be displayed

NOTE: If the Sat-Fi2 does not have a satellite connection, the email message will be placed in the message Queue and sent when the Sat-Fi2 reconnects to the satellite.

Attaching images to an Email

Follow steps 1 – 4 from Composing and Sending Email

For Android:

1. Select  to choose the image
(NOTE: The bottom left lets the user take a photo with the camera; bottom right lets the user choose from existing photos)
2. Once a photo is selected, there is an option to rotate as well as changing the pixel size.
3. Select the check mark at the top right corner of the app to attach the photo to the email

For iPhone:

1. Select Attach Image
2. Tap on Select a Photo. The photos can be selected from the camera or from the phone's Photo Library
3. If needed, adjust the size. Select resize & Compress
4. Image will be attached to the email

Hibernation Mode:

As a default setting, the Sat-Fi2 will go into hibernation mode after 15 minutes of no activity. During hibernation, the Sat-Fi2 will power off the satellite modem to increase battery life.

The hibernation timer can be configured from the settings menu in the app or web console.

When the Sat-Fi2 is in hibernation mode, the power LED does a dimming blink in orange and green colors.

To wake up the Sat-Fi2 from hibernation mode, access the app and a notification will be displayed showing that the Sat-Fi2 is waking up from hibernation. You will also see the green lights scrolling through the Sat-Fi2 LED's. Additionally, pressing the power button for 7 seconds will start the power off sequence.

NOTE: To initiate S.O.S. while in hibernation mode, press and hold down the S.O.S. button for 3 seconds on the device. This will wake up the device and initiate S.O.S. once a connection has been established.

S.O.S. / GEOS

IMPORTANT: S.O.S. MODE SHOULD ONLY BE USED DURING LIFE THREATENING EMERGENCIES. SENDING FALSE S.O.S. MESSAGES MAY SUBJECT YOU TO LIABILITY FOR ADDITIONAL CHARGES.

Activate the S.O.S. mode to begin communicating and sending alerts directly to GEOS International Emergency Response Coordination Center (IERCC). GEOS will notify the appropriate emergency responders based on your Sat-Fi2's GPS location and your emergency situation. Responders may include local police, Coast Guard, or Search and Rescue teams. Please note that you may be liable for expenses related to your rescue.

Once S.O.S. is initiated, the Sat-Fi2 will continuously send GEOS your GPS position every 5 minutes until the S.O.S. is canceled or the device is powered off. While S.O.S. is active, the Sat-Fi2 should remain outside where it has a 360° clear view of the sky with no obstructions in order to maintain network connectivity.

Initiating an S.O.S.

S.O.S. From the Device

Perform the following steps to initiate an S.O.S. from the Sat-Fi2 device:

1. Ensure the following:
 - The Sat-Fi2 is outside with a 360° clear view of the sky with no obstructions (buildings, trees, etc.)
 - The Sat-Fi2 is powered on with the co-located antenna fully extended in the up-right position

While the Sat-Fi2 is trying to establish a connection with GEOS, the S.O.S LED will stay a solid **GREEN**. After a connection has been established, the LED will do a double blink.

NOTE: If the Satellite LED is blinking RED, move the Sat-Fi2 to a location with a better view of the sky. Keep looking for a better location until the Satellite LED starts to blink GREEN.

3. Once the Sat-Fi2's GPS location is determined, Sat-Fi2 will send an S.O.S. notification with GPS location to GEOS every 5 minutes until the S.O.S. is cancelled or the Sat-Fi2 is powered off.

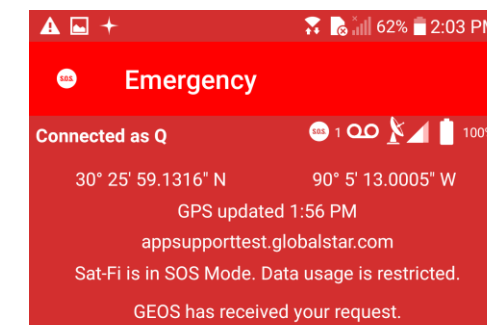

S.O.S. Button

S.O.S. from the Sat-Fi2 App

Perform the following steps to initiate an S.O.S. from the Sat-Fi2 App:

1. From the Sat-Fi2 App home screen select the S.O.S.
2. Press and hold the white circle and slide from left to right to unlock

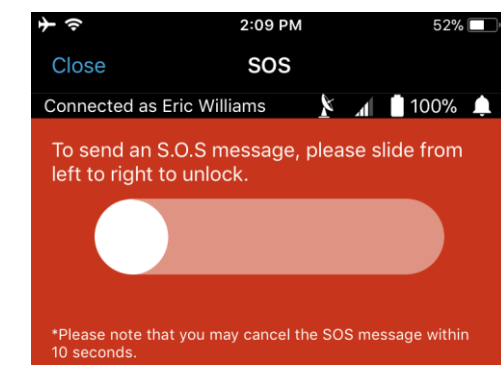

In S.O.S. Mode

When S.O.S. is active, the Sat-Fi sends your location information to GEOS every five minutes. Once the Sat-Fi receives a confirmation from GEOS of your request, you can type additional information below to send to GEOS.

Android

Current Coordinates

30° 25' 59" N 90° 5' 13" W

iPhone

Communicating with GEOS via text

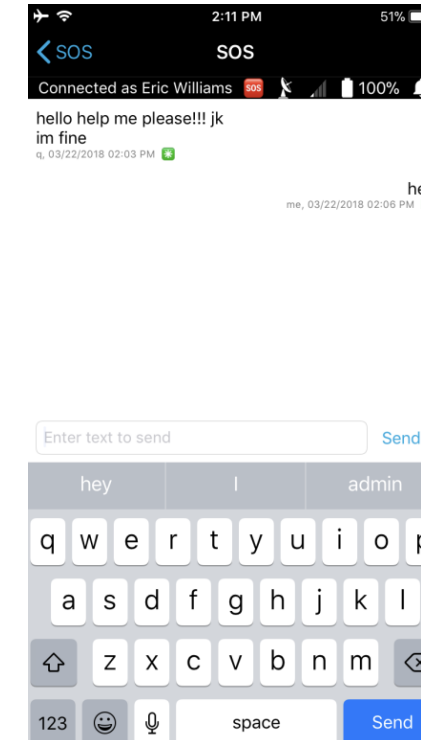

Perform the following steps to communicate with GEOS via text:

For Android:

1. Once the S.O.S. has been initiated, the Sat-Fi2 app will show that it is in S.O.S. Mode
2. At the bottom of the screen, there will be a field to type in the message to send to GEOS
3. Select  to send the message
4. A message will be displayed saying the Message was sent to Sat-Fi2 and GEOS will be notified.

For iPhone:

1. Once the S.O.S. has been initiated, the Sat-Fi2 app will show that it is in S.O.S. Mode
2. Select Send Message
3. Type in the message to send to GEOS
4. Select Send
5. A message will be displayed saying the Message was sent to Sat-Fi2 and GEOS will be notified.

Cancelling an S.O.S.:

IMPORTANT: THE SAT-FI2 WILL REMAIN IN S.O.S. MODE UNTIL CANCELED BY THE USER. THE S.O.S. NOTIFICATION TO GEOS WILL NOT BE CANCELED IF THE DEVICE IS POWERED OFF OR IF THE SAT-FI2 APP IS TURNED OFF.

S.O.S. From the Device

Perform the following steps to cancel an S.O.S. from the Sat-Fi2 device:

1. Ensure the following:
 - The Sat-Fi2 is outside with a 360° clear view of the sky with no obstructions (buildings, trees, etc.)
 - The Sat-Fi2 is powered on with the co-located antenna fully extended in the up-right position
2. Select the S.O.S. function from the main menu and slide from left to right to unlock
3. The Sat-Fi2 will send a cancellation message to GEOS notifying them that the Sat-Fi2 has entered S.O.S. cancelation mode

S.O.S. from the Sat-Fi2 App

Perform the following steps to cancel an S.O.S. from the Sat-Fi2 App.

1. Ensure the following:
 - The Sat-Fi2 is outside with a 360° clear view of the sky with no obstructions (buildings, trees, etc.)
 - The Sat-Fi2 is powered on with the co-located antenna fully extended in the up-right position
2. Within 10 seconds from initiating the S.O.S. mode, slide from right to left to cancel the alert.
3. The Sat-Fi2 will send a cancellation message to GEOS notifying them that the Sat-Fi2 has entered S.O.S. cancelation mode.

SAT-BROWSE

Overview

Sat-Browse provides a dedicated optimized search engine powered by Yippy. Yippy compresses web sites and removes advertisements, banners and graphics, greatly reducing the amount of data usage. Sat-Browse is not designed for banking and secure sites (https), shopping sites and streaming services.

Initial Configuration of Sat-Browse

Perform the following steps to configure Sat-Browse:

1. Select Web
2. Select Sat-Browse
3. Select Login
4. Enter you Globalstar My Account Username and Password
5. Enter Login
6. Check the Yippy Customer Agreement
7. Select Continue
8. Select Continue when the screen says "Agreement is Required"
9. Configuration of Sat-Browse is complete

Web Browsing

Perform the following steps to browse the web:

1. Select Web
2. Select Sat-Browse
3. Select Login
4. Enter you Globalstar My Account Username and Password
5. Enter Login
6. Enter search request
7. Select Search
8. The search results will be displayed – Select the orange search result to view

(NOTE: Selecting [Standard Version] will download a non-optimized web page, resulting in large data consumption and possible overage costs)
9. The optimized web page will be displayed

SOCIAL MEDIA

Facebook & Twitter

Configuring the Sat-Fi2 App for Facebook and Twitter

NOTE: Globalstar recommends configuring Facebook and/or Twitter accounts over an Internet/Cellular connection. Configuring Facebook and/or Twitter over the Sat-Fi2 will consume data.

Perform the following steps to link the Sat-Fi2 App to Facebook and Twitter:

FACEBOOK:

1. On the Sat-Fi2 app, select Social
2. Select Facebook
3. Enter Facebook's account user information
4. Select Login
5. A message will display saying "Globalstar Sat-Fi2 will receive your public profile and email address." Select Continue
6. Select who can see the Sat-Fi2 Facebook posts:
 - Public
 - Friends
 - Only me
7. Select OK – Configuring the Sat-Fi2 for Facebook is complete

TWITTER:

1. Select Social
2. Select Twitter
3. Enter Twitter username
4. Enter Twitter password
5. Select Sign In
6. The Sat-Fi2 Twitter screen will be displayed – Configuring the Sat-Fi2 for Twitter is complete

Posting to Facebook and Twitter

Perform the following steps to post to Facebook and Twitter using the Sat-Fi2 App:

FACEBOOK:

1. Select Social
2. Select Facebook
3. Enter Facebook post
4. On Android, select 
On iPhone, select Post
5. The Facebook post will be sent

TO POST A PICTURE:

1. Select Social
2. Select Facebook
3. Enter Facebook post
4. On Android, select 
On iPhone select Attach Image
5. On Android, select the camera icon to take a photo or select a photo
On iPhone
6. Select the camera icon to take a picture
7. Select OK to accept the photo or select RETRY to take another photo
8. Select  to attach the phot to the Facebook post.
9. On Android, select 
On iPhone, select Post
10. The Facebook post will be sent

NOTE: Multiple photo uploads are not supported at this time, they will have to be uploaded one by one.

TWITTER:

1. Select Social
2. Select Twitter
3. Enter Tweet
4. On Android, select 
On iPhone, select Post
5. The Tweet will be sent

TO POST A PICTURE:

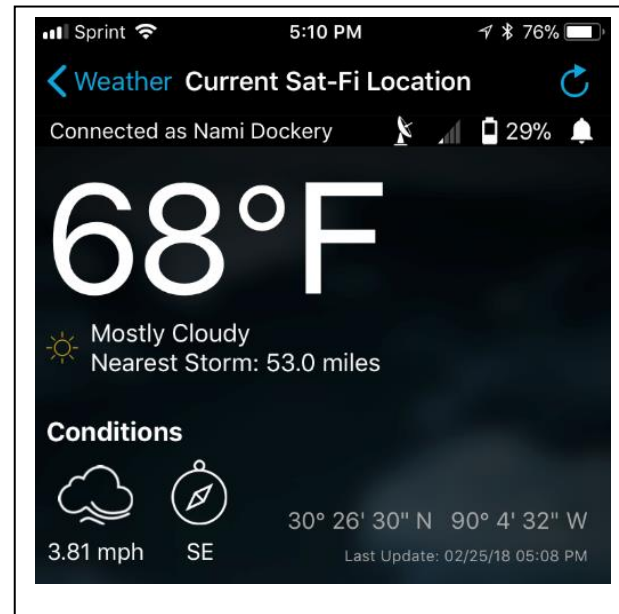

1. Select Social
2. Select Twitter
3. Enter Tweet
4. On Android, select 
On iPhone,
5. Select the  to take a photo or select  to select a photo
6. On Android, (Optional) Select 
On iPhone
7. On Android, Select OK to accept
On iPhone
8. Select OK to accept the photo or select RETRY to take another photo
9. Select  to attach the phot to the Facebook post.
10. On Android, select 
On iPhone, select Post
11. The Tweet will be sent

WEATHER

Current Weather Screen

The Weather screen displays the following information

- Weather radar (not active by default)
- Sat-Fi2's current GPS location
- Current weather condition
- Current temperature
- High and low temperature for the day
- Current "Feels Like" temperature
- Wind speed & direction
- More Weather Information

Forecast Weather Screen

The Forecast screen displays the following information:

- Weather forecast for the next 7 days
 - Day of the Week
 - Forecasted Weather conditions
 - High & low temperatures

Extended Forecast	
Sunday 02/25	72°F 62°F
Rain overnight.	
Cloud Cover: 62%	Dew Point: 65.05°F
Humidity: 90%	Moon Phase: 35%
Ozone: 259.5 du	Precip Probability: 83%
Precip Type: rain	Pressure: 1017.1 mbar
Sunrise: 06:31 AM	Sunset: 05:57 PM
Min Temp: 61.81 °F	Max Temp: 72.11 °F
Visibility: 8.46 miles	Wind Speed: 2.81 mph
Min Feel Temp: 62.13 °F	Max Feel Temp: 73.31 °F
Precip: 0.0075 in per hour	Precip Max: 0.0384 in per hour

More Details Screen

The More Details screen displays the following information:

- Weather summary
- Maximum and minimum "Feels Like" temperature for the day
- Precipitation probability percentage for the day
- Sunrise and sunset times
- Visibility distance
- Ozone level
- Atmospheric pressure
- Percentage of cloud cover
- Precipitation type
- Dew point temperature

Weather Configuration

The Weather Configuration allows making the following changes:

- Weather units can be changed to SI, U.S., Canada, or U.K.
- Enable or Disable Radar
- Enable or Disable Animate Radar
- Change the Radar Radius

View Current Weather

Perform the following steps to view the weather for the current location:

1. Select Weather
2. Select Current Sat-Fi2 location
3. A message will come on asking if you want to load data, select Yes or Load Data
4. The current weather location weather will be displayed

Weather Radar

Perform the following steps to enable and display weather radar:

For Android:

1. Select Settings from the Weather Menu
2. Check Download Radar and Animated Radar
3. Exit out of Settings
4. Select Current Sat-Fi2 Location
5. The app will ask if you want to download weather, select Yes
6. Select the radar icon

(NOTE: Downloading weather radar will incur data usage)
7. The radar map will be displayed

For iPhone:

1. Select the Settings icon from the Main Menu
2. Under Weather Configuration, tap on Enable Radar and Animate Radar
3. Exit out of Settings select Close
4. Select the Weather icon
5. Select Current Sat-Fi2 Location
6. Select Load Data when the app asks if you would like to load latest weather Data
7. Select the world icon

(NOTE: Downloading weather radar will incur data usage)

QUEUE

Queue Screen

The Queue screen displays messages residing in the Sat-Fi2 Queue waiting to be sent. All Queued messages are prioritized first by size and then time submitted. Queued message priority cannot be edited, but individual Queued messages can be deleted.

The Queue screen displays the following information:

- Message Type
 -  Email
 -  Facebook
 -  Twitter
- Sender of the message
- Subject or brief summary
- Date/Time placed in Queue
-  Adds a message to the Queue (Email, Facebook or Twitter)

Delete a Message from the Queue

Perform the following steps to delete a message from the Queue:

For Android:

1. Select the queued message to be deleted
2. Select delete
3. When asked if you want to remove the message from the queue, select Yes
4. The queued message will be deleted

For iPhone:

1. Select the queued message to be deleted
2. Select and hold the queued message that needs to be deleted
3. When asked to select an action, select Delete
4. The queued message will be deleted

Add Messages to the Queue

Perform the following steps to add messages to the Queue:

For Android:

1. Select the Queue icon
2. Select the plus sign
3. Select the message type to add to the Queue.

The options are:

- Facebook
- Twitter
- Email
- Download

For iPhone:

1. Select Queue icon
2. Select Add New Queue Item
3. Select the message type to add to the Queue:

4. The options are:

- Facebook
- Twitter
- Email
- Download

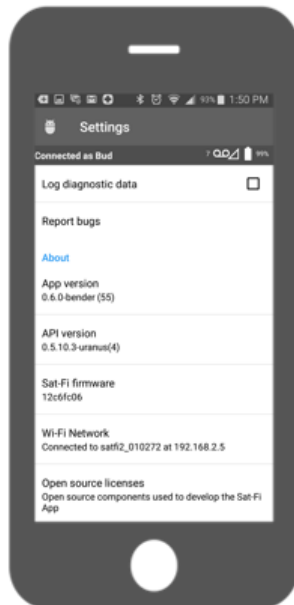

(NOTE: To download a file, select “View Downloads” from the Queue menu. Then tap the + at the top right and then enter a URL into the first bar and the name in the second bar. Then tap “Add to Queue”

APP SETTINGS

App Settings Screen

The Settings screen on the **Android App** displays the following information:

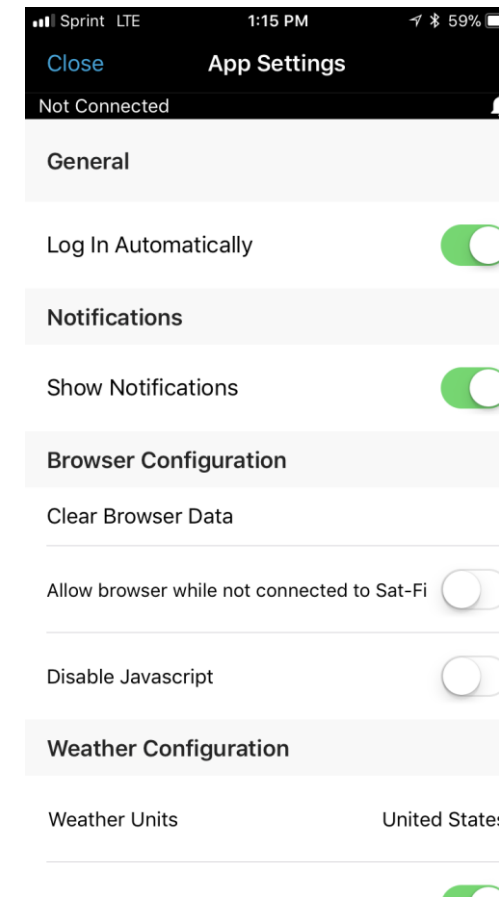

- General
 - Log in automatically – Selecting the checkbox toggles on/off the ability to log in automatically to the Sat-Fi2 App
 - Disable wallpaper – Selecting the checkbox toggles on/off the wallpaper display
- System
 - Show Android notifications - Selecting the checkbox toggles on/off Android notifications (i.e. Email, Social Media)
- Support
 - Globalstar.com Website – Selecting Globalstar.com Website displays the Globalstar website using an Internet connection or using the Sat-Fi2
 - FindMeSpot.com Website - Selecting FindMeSpot.com Website displays the FindMeSpot website using an Internet connection or using the Sat-Fi2
 - Log diagnostic data - Selecting the checkbox toggles on/off the ability for the Sat-Fi2 App to automatically create diagnostic logs
 - Report bugs - Selecting the checkbox toggles on/off the ability for the Sat-Fi2 App to automatically report bugs logs and notify the user that the logs are being sent
- About
 - App version – Display the current Sat-Fi2 App version number on the smartphone
 - API version – Displays the current Sat-Fi2 API version number on the smartphone
 - Sat-Fi2 firmware – Displays the current firmware module version residing on the Sat-Fi2 device
 - Wi-Fi Network – Displays the connection name of the Wi-Fi network (i.e. satfi2_XXXXXX)
 - Open source licenses – Selecting Open source licenses displays the Open Source projects used in the development of the Sat-Fi2 App

The Settings screen on the **iPhone App** displays the following information:

- General
 - Sat-Fi2 IP Address
 - Log in Automatically – Enable or disable the ability to log in automatically to the Sat-Fi2 App
 - Reset Network – Reset app to default Sat-Fi2 address
 - API to Use – Select from Test, Production and Dev
 - Allow Email Without Sat-Fi2 Connection
 - Enable Logging
 - View Logs
- Notifications
 - Show Notifications – Enabling and disabling iPhone notifications (i.e. Email, Social Media)
- Browser Configuration
 - Clear Browser Data
 - Allow browser while not connected to Sat-Fi2
 - Disable Javascript
- Weather Configuration
 - Weather Units - Select from SI, United States, Canada or United Kingdom
 - Enable Radar
 - Animate Radar
 - Radar Radius (in nm)
- About
 - App Version
 - Sat-Fi2 Firmware Version
 - Open Source Information
 - Globalstar Website - Selecting Globalstar Website displays the Globalstar website using an Internet connection or using the Sat-Fi
 - FindMeSPOT Website - Selecting FindMeSpot Website displays the FindMeSpot website using an Internet connection or using the Sat-Fi2
- Device Configuration
 - Launch Setup Wizard
 - Allow FW Download Over Cellular
 - Firmware Update

- User Configuration
 - Clear Social Configuration
 - Register Facebook
 - Register Twitter

Viewing the App Settings Screen

Perform the following steps to view the Settings screen:

For Android:

1. Select the Menu button and select App settings
2. The Settings screen will be displayed

For iPhone:

1. Select the Settings icon on the main menu
2. The Settings screen will be displayed

Firmware Update

Perform the following steps to update the firmware on your Sat-Fi2:

For Android:

1. Select  in the top right corner
2. Select "App Settings"
3. Scroll down to "Check for New Firmware"
4. Select Download
5. Select "Start Download"
6. There will be two options available: "Start Update" or Run Update Later."
 "Start Update" will begin the firmware update. If "Update Later" is selected, then the option to reconnect to the Sat-Fi2 Wi-Fi will be available, then a green bar will be displayed. Select it at any time and continue to Step 7.
7. Wait for the firmware to upload to the Sat-Fi2. After the firmware is uploaded, the Sat-Fi2 will reboot showing, so the LEDs will begin their scrolling sequence.

(NOTE: When the user reconnects to the Sat-Fi2 via the app, there will be a notification telling the user that "The Sat-Fi2 was previously shutdown to complete a Firmware Update."

For iPhone:

1. Select Settings icon on the main menu
2. Select Firmware Update, then the following message will be displayed: "Fetching currently running Sat-Fi2 firmware version"
3. Select Download Update once the following message appears: "A message then will show saying a New Update is available"
4. Select OK when the Sat-Fi2 App displays a message asking to disconnect from the Sat-Fi2 before downloading the update
5. Select OK when prompt to connect to a broadband Wi-Fi connection to download the firmware update or allow download over cellular in the Settings menu
6. On Settings enable Allow FW Download Over Cellular if no Wi-Fi connections are available
7. Select Firmware Update in order to begin the download
8. After the update has been downloaded, connect to the Sat-Fi2 and press Update Sat-Fi2 to continue. While the Sat-Fi2 is updating, please do not close the app
9. The Sat-Fi2 will reboot, so the LEDs will begin their scrolling sequence and disconnects the phone from its Wi-Fi. This indicates that the Sat-Fi2 updated
10. Updating Sat-Fi2 firmware update

(NOTE: When the user reconnects to the Sat-Fi2 via the app, there will be a notification telling the user that the firmware was downloaded successfully. If it was interrupted or did not download successfully, then the app will give a notification saying the firmware update was interrupted

DEVICE SETTINGS

Viewing the Device Settings

The Device Settings screen can only be accessed while logged in as the Sat-Fi2 Owner. Perform the following steps to access the Device Settings screen:

For Android:

1. Select the Menu button and select Device Settings
2. Enter your My Account username and password
3. The Admin Console screen will be displayed

For iPhone:

1. Select the Settings button on the Main Menu
2. Select Configure Device Setting
3. Enter your My Account username and password
4. The Admin Console screen will be displayed

The Device Info screen displays the following information:

- **Battery** – Displays the current battery strength percentage
- **Signal** – Displays the current satellite signal strength percentage
- **Last GPS Fix** – Displays the date/time of the latest GPS fix
- **Latitude** – Displays the latest latitude of the current GPS fix
- **Longitude** – Displays the latest longitude of the current GPS fix
- **Voice Connection Status** – Displays the current status of the Voice Connection
- **Satellite Call in Progress** – Displays if a satellite call is in progress
- **Data Connection Status** – Displays the current status of the data connection
- **Connected Users** – Displays the number of current connected users to the Sat-Fi2

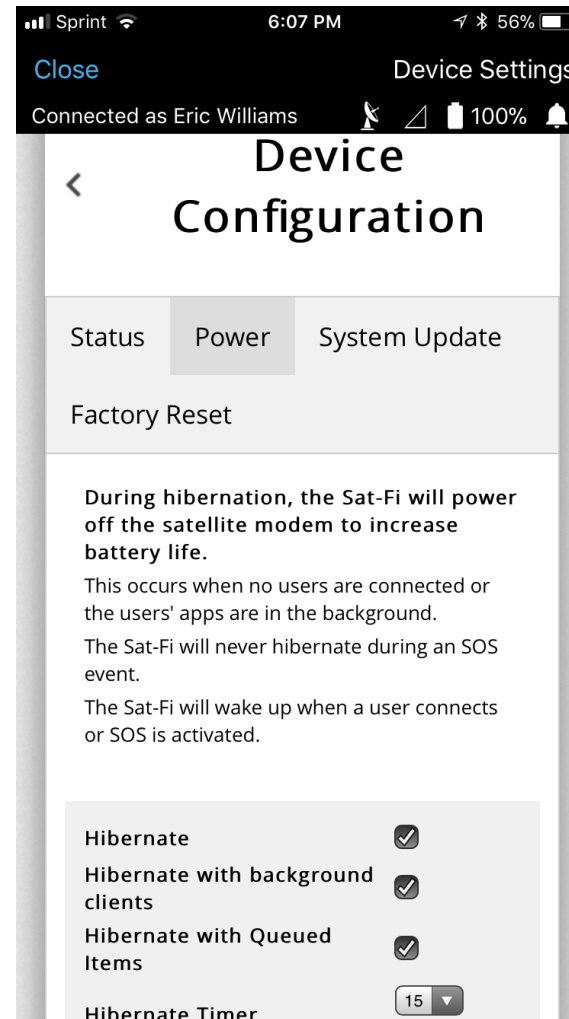

Hibernation Mode Configuration:

To make these changes, the user must be logged in as the owner.

For iPhone:

1. Select the Settings button from the Main Menu
2. Select Configure Device Settings
3. Select Device Configuration
4. Select Power
5. In this section, the following options can be enabled or disabled:
 - Hibernate
 - Hibernate with background clients
 - Hibernate with Queued Items
 - Hibernate Timer – Select from 15, 30, 45 or 60 minutes
6. Select Save

GLOBALSTAR MY ACCOUNT

The Globalstar My Account website is a quick and easy way to manage a Sat-Fi Account:

- View and update S.O.S. Emergency Contacts
- Configure Voice/Text Blocking
- Access User Guides and Sat-Fi2 Apps
- View instructions on how to perform a Factory Reset
- Update User Information
- Display Usage Reports on texts used, Voice minutes used and data used

Logging In to My Account

Perform the following steps to login to My Account

1. In a web browser enter MySatFi.Globalstar.com
2. Enter your login credentials
3. Select LOGIN

My Devices Main Screen

The My Device Main screen displays all of the Globalstar satellite devices registered within My Account, allowing for the navigation to individual Globalstar devices for management.

Filtering Devices

Filtering devices allows for a quick search and navigation to a Globalstar device. Perform the following steps to filter for a specific Globalstar device:

1. Click on .
2. A Filter drop-down menu will be displayed. Select the Globalstar device(s) to View.

3. The selected Globalstar device(s) will be displayed and all other devices will be hidden from view:

My Devices

Manage the devices in your Globalstar account.

View Device Details

Perform the following steps to view the Globalstar device details

1. Select **View Details** to the right of the Globalstar device to be viewed..

My Devices

Manage the devices in your Globalstar account.

My Account – My Devices

Sat-Fi2 My Devices Overview

The Sat-Fi2 My Devices screen displays key information and allows for the management of the Sat-Fi2.

My Devices

Manage the devices in your Globalstar account.

Device Name: My Sat-Fi2

Device Settings

- 1 Device Type: Globalstar Sat-Fi2
- 2 Renewal Date: 03/05/2019
- 3 ICCID: 8901970 000 000 987683
- 4 MDN: 1(974)348-4278
- 5 Plan: Advantage 500 USD
- 6 Device Name: My Sat-Fi2
- 7 S.O.S.
- 8 Voice/Text Blocker
- 9 Support
- 10 Factory Reset

Download User Guide (PDF)

Use the menu on the left to edit your device settings.

- 1 Device Type** - Displays the Globalstar device type, i.e. Sat-Fi2
- 2 Renewal Date** - Displays the date the Sat-Fi2 Service plan will automatically be renewed
- 3 ICCID**- Displays Integrated Circuit Card Identifier of the Sat-Fi2 SIM card – This number is used for identifying and registering the Sat-Fi2
- 4 MDN** - Displays Mobile Device Number assigned to the Sat-Fi2 – The MDN is the Sat-Fi2’s telephone number
- 5 Plan** - Displays the plan name associated with the current Sat-Fi2
- 6 Name Tab** – Used to change the name of the Sat-Fi2 that is displayed throughout My Account
- 7 S.O.S.** –Displays the Primary and Secondary Emergency Contact information
- 8 Voice/Text Blocker** – Used to control who can call and send text messages to the Sat-Fi2 – Defaults to Accept All
- 9 Support** – Used to download the Sat-Fi2 App and User Guides for supported wireless devices
- 10 Factory Reset** – Used to restore your Sat-Fi2 to its original system settings

Name Tab

Give a unique name to the Sat-Fi2. The Sat-Fi2 name will automatically default to the MDN. For accounts with multiple Sat-Fi2's or other Globalstar devices, giving a unique name to the device will make it easier to identify and select the Sat-Fi2.

Getting Started My Devices Settings & Billing

My Devices

Manage the devices in your Globalstar account.

The screenshot shows the 'My Devices' page for a Globalstar Sat-Fi2. On the left, there is a device image and a list of details: Device Type: Globalstar Sat-Fi2, Renewal Date: 03/05/2019, ICCID: 8901970 000 000 987683, MDN: 1(974)348-4278, and Plan: Advantage 500 USD. Below this is a 'Download User Guide (PDF)' link. The main content area is titled 'Device Name: My Sat-Fi2' and has a 'Device Settings' section with an orange arrow pointing to the 'Device Name' field, which currently contains 'My Sat-Fi2'. Below the name field is a 'Save' button. To the right of the name field are 'Contact Settings' (S.O.S., Voice/Text Blocker) and 'Support' (Support, Factory Reset) options.

Perform the following steps to change the Sat-Fi2's display name:

- In the **Name** field enter the new name of the Sat-Fi2.
- Select **Save**
- My Account will change the name of the Sat-Fi2 and the following message will be displayed:

✔ Your device name has been updated to Nami's Sat-Fi2

S.O.S. Tab

While S.O.S. is active, two way communications with GEOS International Emergency Response Coordination Center (IERCC) is available directly from your Sat-Fi2 via the Sat-Fi2 App.

The S.O.S. Tab displays Primary and Secondary Emergency Contact names and telephone numbers that GEOS contacts when an S.O.S. is initiated.

The Primary Emergency Contact information must be different from the Secondary Emergency Contact information. This is required to provide GEOS with additional points of contact in case of an S.O.S./911 emergency.

NOTE: If you would like to make changes to your Primary or Secondary Emergency contact information, please call Globalstar Customer Relations at:

- North America 1-877-452-5782
- Caribbean & Latin America 1-985-327-7511
- Europe +353-1-296-2525
- Africa +353-1-290-9505

The screenshot shows the 'My Devices' page with the 'S.O.S.' tab selected. The left sidebar shows the same device details as the previous screenshot. The main content area is titled 'Device Name: My Sat-Fi2' and has a 'Device Settings' section with an orange arrow pointing to the 'S.O.S.' field. Below this are 'Contact Settings' (S.O.S., Voice/Text Blocker) and 'Support' (Support, Factory Reset) options. The 'S.O.S.' section contains text explaining how to activate S.O.S. and an important notice: 'IMPORTANT NOTICE: S.O.S. MODE SHOULD ONLY BE USED DURING LIFE THREATENING EMERGENCIES. SENDING FALSE S.O.S. MESSAGES MAY SUBJECT YOU TO LIABILITY FOR ADDITIONAL CHARGES.' Below this is a link to learn more about the GEOS Search & Rescue Member Benefit and a note about contacting customer relations for changes to emergency contact numbers.

Voice/Text Blocker Tab

Easily control incoming voice and text messages

Battery Type	Rechargeable Lithium Polymer Battery
Impact Resistance	Mil-STD-810 G for Shock
Operational Temperature	-4° F to 140° F (-20° C to +60° C)
Storage Temperature	-4° F to 140° F (-20° C to +60° C)
Operating Altitude	-328 ft to 21,320 ft (-100 m to 6,500 m)
Globalstar Antenna Operating Frequency	Transmit (TX) 1610 – 1626 MHz Receive (RX) 2483.5 – 2500 MHz
Wi-Fi Operating Frequency	2400 – 2500 MHz
Input Power	10-48 VDC

SAT-FI2 CERTIFICATIONS

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

FCC Part 15 Clause 15.21

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

ISED RF Exposure Guidance Statement (in English and French):

In order to comply with FCC/ISED RF Exposure requirements, this device must be installed to provide at least 20 cm separation from the human body at all times.

Radio & Television Interference

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: a) Reorient or relocate the receiving antenna. b) Increase the separation between the equipment and receiver. c) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. d) Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Certification

This Class B digital apparatus complies with Canadian ICES-003.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This device complies with the requirements for Radio Astronomy Site avoidance as specified by the Globalstar National Science Foundation agreement of 2001. It is compliant with CFR25.213.

This device automatically adjusts its transmission frequency according to its location and is compliant with international regulatory requirements.

Radio Astronomy Site

This device complies with the requirements for Radio Astronomy Site avoidance as specified by the Globalstar National Science Foundation agreement of 2001. It is compliant with CFR25.213.

This device automatically adjusts its transmission frequency according to its location and is compliant with international regulatory requirements.

Déclaration de conformité avec la FCC

Cet appareil est conforme à la section 15 des règles de la FCC. Son fonctionnement est assujéti aux deux conditions suivantes: (1) Ce dispositif ne doit pas causer d'interférences nuisibles, et (2) Cet appareil doit accepter toute interférence reçue, y compris les interférences pouvant entraîner un fonctionnement indésirable. Cet équipement a été testé et s'est avéré conforme aux limites pour un appareil numérique de classe B, conformément à la section 15 des règlements de la FCC. Ces limites sont conçues pour fournir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle.

FCC: Section 15 Clause 15.21

Les changements ou modifications non expressément approuvés par la partie responsable de la conformité peuvent annuler l'autorité de l'utilisateur à utiliser l'équipement.

ISED RF Déclaration d'orientation sur l'exposition

Afin de se conformer aux exigences d'exposition RF FCC / ISED, cet appareil doit être installé pour fournir au moins 20 cm du corps humain en tout temps.

Interférence Radio et Télévision

Cet équipement produit, utilise et peut émettre de l'énergie radioélectrique. S'il n'est pas installé et utilisé conformément aux instructions, il peut causer des interférences nuisibles aux communications radio. Toutefois, il n'y a aucune garantie que l'interférence ne se produira pas dans une installation particulière. Si cet appareil provoque des interférences nuisibles à la réception radio ou télévision, ce qui peut être déterminée en éteignant et rallumant l'équipement, l'utilisateur est encouragé à essayer de corriger ces interférences en appliquant une ou plusieurs des mesures suivantes: a) Réorienter ou déplacer l'antenne de réception. b) Accroître la séparation entre l'équipement et le récepteur. c) Brancher l'équipement à une prise sur un circuit différent de celui auquel le récepteur est branché. d) Consulter le revendeur ou un technicien radio/TV.

Certification d'Industrie Canada

Cet appareil numérique de classe B est conforme à la norme canadienne ICES-003. Cet appareil est conforme avec Industrie Canada RSS standard exemptes de licence(s). Son fonctionnement est soumis aux deux conditions suivantes: (1) cet appareil ne peut pas causer d'interférences et (2) cet appareil doit accepter toute interférence, y compris des interférences qui peuvent provoquer un fonctionnement indésirable du périphérique.

Site de Radio Astronomie

Cet appareil respecte les exigences de Radio Astronomie de limitation d'émission d'onde définies par l'accord de la Foundation Nationale de Science Globalstar de 2001. Il est compatible avec CFR25.213

Cet appareil ajuste automatiquement sa fréquence de transmission en fonction de son emplacement et est conforme aux exigences réglementaires internationales

SAT-FI2 GENERAL WARNINGS

-  **Warning – Modifications:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

-  **Warning – Internal Battery:** The rechargeable battery inside the Sat-Fi2 is not designed to be replaced by the consumer. If replacement is needed, have an authorized service person replace the battery with one of the same size and type

-  **Warning – Blasting Area:** To avoid interference with blasting operations, turn your Sat-Fi2 off when in a "Blasting Area" or in areas posted "Turn off two-way radio." Obey all signs and instructions.

-  **Warning – Potential Explosive Atmosphere:** Turn off the Sat-Fi2 when in any area with a potentially explosive atmosphere and obey all signs and instructions.

-  **Warning – Driving:** Always follow safe driving practices and local rules and regulations regarding the use of wireless devices while driving. Always park safely prior to using the Sat-Fi2.

-  **Warning – Pacemakers:** The Health Industry Manufacturers Association recommends that a minimum separation of six (6") inches be maintained between the Sat-Fi2 and a pacemaker to avoid potential interference with the pacemaker.

-  **Warning – Pacemakers:** Some digital wireless devices may interfere with some hearing aids. In order to prevent such interference, you may want to consult the manufacturer of your hearing aid.
