

Sensar Marine

Boat Monitor

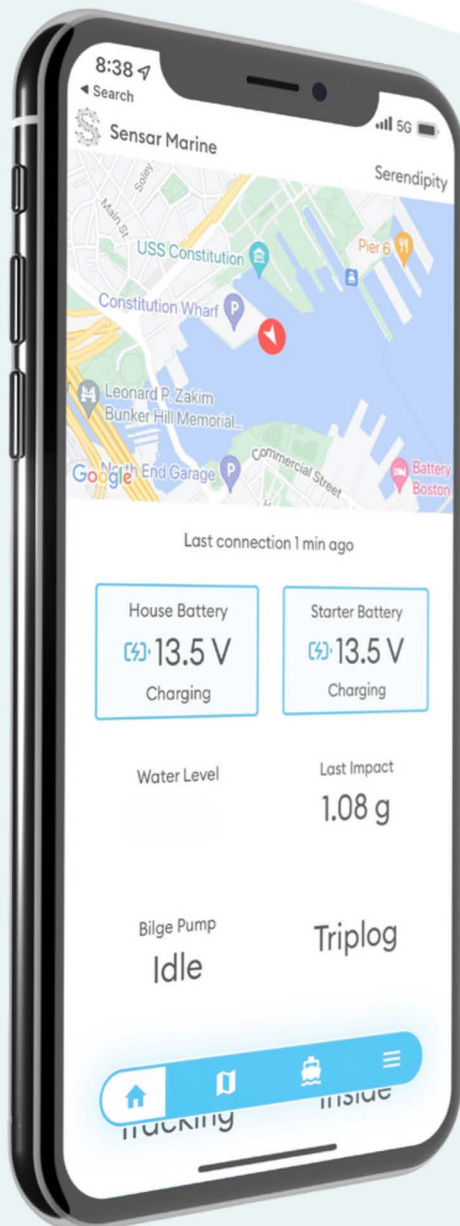

BM700

Know your boat is OK when you are away!

With Sensar Marine installed, you can check on your boat anytime from your cellphone. Data is continuously uploaded to the cloud and SMS alerts are sent instantly if there is a problem.

The Boat Monitor will run 24/7/365 - without depleting your boat batteries.

Voltage (12 or 24v)

Your two battery banks will be monitored and you will be warned when they to critically low levels. Supports lithium too!

GeoFence

Notifies you if your boat moves from where you left it. This fully automatic function activates after the boat has been still for over 15 minutes.

TripLog

Log all your trips automatically - no need to press record. Detailed data is captured with speed, course, impact, time and location.

GPS Position & Sharing

The integrated GPS antenna gives you real-time information about your boat's position and the ability to quickly send it by text to friends or in case of an emergency.

Impact

See if your boat is in rough seas or has experienced an impact. An integrated accelerometer measures G-force.

Bilge Pump

Track your pump activity. You'll be alerted anytime the bilge pump operates.

Worldwide Service

Integrated SIM provides unlimited, carrier-independent, global 4G data uploads to the Sensor Marine app & SMS alerts. Only \$120/year (\$10/month)

Always On and Monitoring

Even when your boat's battery switch is off, the Boat Monitor stays on. Perfect for boats on moorings & trailers, the device's massive internal battery can run for months with any draw and will automatically charge when surplus boat power is next available.

IPx7 Waterproof

Flexible mounting options! Proven in the harsh North Sea, the Boat Monitor is fully waterproof and hardened for marine use. Not just for yachts... works great in boats of all sizes!

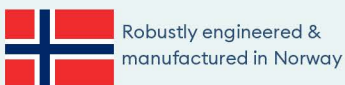

Europe's best-selling boat monitor... now available in America!

3.8" x 4.4" x 1.4"
12oz

Sensor Marine Boat Monitor

Detect & track changes of critical systems on your boat and view their status on your mobile phone.
