

MaxFinishing Polish (1635)

DESCRIPTION

MALCO[®] Marine MaxFinishing Polish is an advanced all-in-one polish and swirl remover. It can be used on gel coat, fiberglass and select painted surfaces. MaxFinishing Polish creates a rich, deep gloss and swirl-free finish in a single step after compounding.

DIRECTIONS

SHAKE WELL BEFORE USING. Do not apply in sunlight or on warm surfaces. Apply a 1" dab of MaxFinishing Polish for a 2' x 2' (.6m x .6m) section and spread with the polishing pad. Buff at speed between 1000 to 1600 rpm. Recommended speed is 1400 rpm. Work the buffer slowly left to right and front to back, using light to medium surface pressure, slowly reducing pressure with subsequent passes. Do not buff to a dry surface, if surface begins to dry, apply more product, and continue to buff. Remove residue after buffing with a Microfiber Cloth.

Part number: 163532

4 – 1 Gallon

Part number: 163501

FREQUENTLY ASKED QUESTIONS

PRODUCT FAQ'S:

Q1: Is MaxFinishing Polish paint shop safe?

A1: MaxFinishing Polish is paint shop safe and contains no silicone, wax, or fillers.

Q2: What is the main use for MaxFinishing Polish?

A2: MaxFinishing Polish is a very versatile product that creates a deep gloss and a swirl-free finish. Use after compounds to get a high-gloss finish.

Q3: Can MaxFinishing Polish be used with other buffing systems?

A3: Yes, MaxFinishing Polish is compatible with all buffing products and systems.

Q4: How do I know what Malco pad to use with MaxComplete Compound?

A4: For best results use the Malco grey foam polishing pad, #890172 or blue wool polishing pad (single-sided - #890144, double-sided - #890164).
