

# MaxComplete

## Cutting Compound (1630)

### DESCRIPTION

Malco<sup>®</sup> Marine MaxComplete next generation cutting compound provides aggressive cutting action for heavy scratch removal and produces a gloss final finish. This water-based, easy-to-cleanup, emulsion formula is designed to remove P600 and finer sand scratches and light-heavy oxidation on fiberglass, gel coat, selected painted surfaces in marine and industrial applications.

### DIRECTIONS

SHAKE WELL BEFORE USING. Do not apply in sunlight or on warm surfaces. Apply a 2" dab of MaxComplete Compound for a 2' x 2' (.6m x .6m) section and spread with the cutting pad. Buff at speed between 1800 to 2600 rpm. Recommended speed is 2200 rpm. Work the buffer side to side slowly in a figure eight pattern as you slowly buff the gel coat surface until most of the product is gone and gloss appears. Add more MaxComplete Compound and repeat if necessary to remove deep scratches. Remove compound splatter as soon as possible with a soft, damp cloth such as a clean microfiber cloth..

### FEATURES & BENEFITS

#### Versatile Formula

Can be used on Gelcoat, fiberglass, painted surfaces and industrial application

#### Water-based formula

Environmentally friendly for use in Marinas, safe to use, easy clean-up

#### Aggressive formula

Removes fine sand scratches and oxidation

#### VOC compliant

Can be sold in all 50 states

### PACKAGE SIZES

12 - 32 oz.

Part number: 163032

4 - 1 Gallon

Part number 163001

## ***FREQUENTLY ASKED QUESTIONS***

**Q1: What grit sand scratches will MaxComplete Compound remove?**

A1: MaxComplete Compound is designed to remove P800 or finer sand scratches.

**Q2: What is the main use for MaxComplete Compound?**

A2: MaxComplete Compound is a very versatile product that works well to remove aggressive sand scratches, defects, and heavy oxidation in marine applications.

**Q3: Can MaxComplete Compound be used with other Malco buffing systems?**

A3: Yes, MaxComplete Compound is compatible with all Malco buffing products and systems.

**Q4: How do I know what Malco pad to use with MaxComplete Compound?**

A4: For best results use the white, hook and loop 100% twisted wool pad from Malco (single sided - #890146, double sided - #810073).

**Q5: What is the difference between MaxComplete Compound and Gel Coat Compound?**

A5: MaxComplete is the next generation of Gel Coat compound. MaxComplete uses a newer abrasive technology to improve cutting speed while providing a higher gloss finish.
