

EVERYDAY ESSENTIAL

SDO™ PADS

Standard Duty Orbital (SDO™) pads have been designed to offer the same great engineered foams as the HDO® line without the dual layer construction and are suitable for all random orbital DA polishers with a center ventilated backing plate. The center hole provides a tunnel to release and dissipate heat from the foam; reducing surface temperatures making it less likely to damage the paint.

SDO™ PADS AGGRESSION CHART

Each bar color coordinates with the applicable pad color.

NEW PRODUCT

SDO™ foam pads are now available as 2 & 1" mini pads

SDO™ FORMULATION

SDO foams provide maximum durability & consistency.

CENTER VENTILATED COOLING CHANNEL

Dissipates heat away from the center of pad, reducing temperature, increasing durability.

TAPERED EDGE

Prevents pad rolling & provides great pad rotation.
