Installation: Find a suitable location making sure there is clearance for the installed depth. Use a hole saw or other suitable device to make a cutout.

Attach speaker wires supplied, solid color wire to positive (red dot or with + sign or larger tab as shown on the diagram).

Remove grill from frame of speaker.

Swing plastic tabs(clamps) to counterclockwise position.

Insert speaker in cutout area and tighten the four stainless steel screws located in the front panel of the speaker.
