

Thank you for purchasing a Shakespeare antenna product. Customer comments are welcome. Before installing, please study the diagram and check parts supplied against those listed.

IMPORTANT! Please read all instructions before installing.

The Styles 4204 and 4237-R are replacement tips for certain Shakespeare antennas. Style 4204 replaces the tip section of Styles 4018 and 4018-M. Style 4237-R is for Shakespeare Style 5208-R antenna.

Tools required: Pocket knife.

Other materials required (not supplied): #18 gauge wire or fishing line, vinyl cement, thread locking compound.

Installation Instructions

1. Remove the broken tip stick.
2. Clip off the existing elastic cord at the uni-ring (See Diagram 1).
3. Install the new elastic cord with swivel (supplied) by inserting the center conductor through the hole in the swivel. Fold back and twist the center conductor, as shown in Diagram 3.
4. Install the new O-ring (supplied) on the antenna's ferrule, as shown in Diagram 2.
5. Use #18 gauge wire or monofilament fishing line (not supplied) as a feed line. Gently remove the replacement tip stick's tip top, and push the feed line through the replacement tip stick *starting at the small end of the stick*.
6. Tie the feed line to the new elastic cord, (see Diagram 3) and pull the feed line into the replacement whip while pushing the tip stick toward the lower section, until the ferrules are 3 to 4 inches apart.
7. Apply a small amount of vinyl cement (not supplied) to the inside walls of the tip top. Remove the feed line, fold the elastic cord over the side of the tip stick, and install the tip top.
8. Apply a small amount of thread locking compound (not supplied) to the threads of the lower section's ferrule. Make sure the O-ring is snugly seated in the ferrule and hand tighten the sections together securely.

- Supplied Parts**

 - 1 Antenna tip stick with tip top
 - 1 Elastic cord with swivel
 - 1 O-ring
