SAFE-T-ALERT™

Replace your CO alarms that are over 5 years old!

Mini Carbon Monoxide Alarm

- **Space Saving.** Compact design for boats.
- **Designed for the harsh marine environment.**
- **No False Alarms** due to new boat smell, outgassing or non-hazardous levels of hydrocarbon gases encountered while boating.
- **Advanced Technology.** Alarm Mute button silences alarm while boat is ventilated. Rapid recovery sensor resets when silenced or reactivates alarm if dangerous levels of CO remain.
- **Reliable.** 12 Volt power means no missing or dead batteries to replace.
- **Memory Scan™.** Retains the CO level that activated the alarm. After ventilation, it is impossible to know what the CO level was unless your detector has memory.
- **Micro Current Technology.** Saves precious battery power in a boat.
- **62-541-R-Marine and 62-542-R-Marine** include normally closed relay. Use to turn on exhaust fans, remote horns/lights/signals or connect to alarms systems.
- **Listed to UL 2034 Marine Use and CSA 6.19-01.**

62-541-Marine Surface Mount Models:

62-541-Marine-WT (White)

62-541-R-Marine-WT (White)

CASE DIMENSIONS: 3.5" W x 2.5" H x 1.5" D

62-542-Marine Flush Mount Models:

62-542-Marine-WT (White)

62-542-R-Marine-WT (White)

CASE DIMENSIONS: 4.5" W x 3.25" H x 1.25" D
